Futureproof: A comprehensive framework for teaching digital citizenship in schools Gianfranco Polizzi, Lee Peachey, Sophie Murfin, Tom Harrison, 2022-06-07

Futureproof shows school leaders and teachers how they can educate for digital citizenship through the adoption of a new comprehensive and coherent framework. The book addresses a gap as there are currently no well known frameworks that provide a comprehensive approach to teaching digital citizenship education in UK schools. This is surprising given how digital technologies are part and parcel of most young people's lives today and will continue to be so in the future. Given that the technologies are constantly changing it might be said that those responsible for teaching digital citizenship are shooting in the dark whilst trying to hit a moving target. The book brings clarity by explaining the theory and research behind the Futureproof framework and through its focus on how it can be implemented in primary and secondary schools. The book includes details of the digital citizenship framework an overview of learning and teaching outcomes and examples from practice throughout.

De Gruyter Handbook of Media and Social Change in the Global South Kehbuma Langmia, 2025-12-15 The birth of the newspapers radio and television in the 19th century brought various interconnected social behavioral and cultural changes in the lives of the colonizer and the colonized in the economically developing nations. Then in the 20th century and now the 21st century the birth of digital media for political social cultural and economic communications have witnessed divergent results in the West and the non Western countries. The Global South is currently facing digital divides and issues related to media illiteracy that tend to impact people's lives more than those in the North.
