**Build for Tomorrow** Jason Feifer, 2022-09-06 Build for Tomorrow will change the way you think so you can overcome any obstacle and reach your full potential Jim Kwik New York Times bestselling author of Limitless The moments of greatest change can also be the moments of greatest opportunity Adapt more quickly and use the power of change to your advantage with this guide from the editor in chief of Entrepreneur magazine and host of the Build for Tomorrow podcast We experience change in four phases The first is panic Then we adapt Then we find a new normal And then finally we reach the phase we could not have imagined in the beginning the moment when we realize that we wouldn't go back Build for Tomorrow is designed to accelerate that process to help you lessen your panic adapt faster define the new normal and thrive going forward And it arrives as we all in some way have felt a shift in our lives The pandemic forced a moment of collective change and we are still being forced to make new plans and adjustments to our lives families and careers Many of us will never go back continuing to work from home demanding higher wages or starting new businesses To help people along this journey Entrepreneur magazine editor in chief Jason Feifer offers stories lessons and concrete exercises from the most potent sources of change in our world He speaks to the world's most successful changemakers from global celebrities like Dwayne The Rock Johnson and Maria Sharapova to innovative CEOs and Main Street heroes to learn how they decide what to protect what to discard and how to move forward without fear He also draws lessons from history looking at how massive changes across time can help us better understand the opportunities of today For example he finds guidance for our post pandemic realities inside the power shifts that occurred after the Bubonic Plague and he reveals how the history of innovations like the elevator and even the teddy bear can teach anyone to be more forward thinking We cannot anticipate tomorrow's needs but it shouldn't take a crisis to push us forward This book will show you how to make change on your own terms *Momentum Planner* Sophia Carlson, AI, 2025-03-04 Momentum Planner presents a novel approach to time management focusing on building sustained motivation and consistent action rather than just scheduling events It introduces a calendar system designed to fuel ambition emphasizing strategic planning consistent action and feedback loops The book argues that typical calendars often fail because they don't foster the daily habits needed for progress Did you know that people are more likely to achieve their goals when they break them into smaller manageable tasks Or that regular reviews and adjustments can significantly improve alignment with long term objectives The book guides readers through creating a personalized momentum building calendar Chapters explore goal setting methodologies like SMART goals and OKRs habit formation techniques and progress tracking strategies By integrating these elements the book aims to create a cohesive planning system that aligns with individual needs and aspirations What sets this book apart is its focus on building momentum moving beyond simple scheduling to create a dynamic system that adapts to evolving needs and keeps users motivated The Momentum Planner draws upon research in behavioral psychology and management science to support its arguments It

begins with core concepts and systematically builds toward a comprehensive planning system incorporating practical applications and actionable exercises to empower readers to take control of their time and achieve their goals Ultimately the book provides a practical framework to build momentum toward long term success
