Foundations of Engineering Mark Thomas Holtzapple, W. Dan Reece, 2023 Traditional engineering courses such as courses on heat transfer circuits and fluids are fairly well defined In contrast there is no general agreement on the content of freshman engineering courses Current freshman engineering texts choose from a range of topics including professionalism creativity ethics design technical writing graphing systems of units engineering science and problem solving All of these topics are important aspects of the freshman engineering experience but we found no one text that adequately encompassed them all Therefore we decided to write our own text to fill the void
