Interpreting Company Reports For Dummies:

Interpreting Company Reports For Dummies Ken Langdon, Alan Bonham, Lita Epstein, 2011-02-15 Company financial reports are a key resource for investors helping them uncover priceless information about a company's profitability or lack thereof from the figures as well as through other non-monetary indicators. Details of lawsuits, changes in accounting methods, liquidations and mergers and acquisitions can all be ways of detecting red flags if you know where to look. However, the jargon and financial footnotes in financial reports can be difficult to decipher and this For Dummies guide on the subject will help readers to understand company reports and make sensible investment choices based on publicly held information. Taking you step by step through the finer points of financial reports, this straightforward guide will help you get to grips with the most accurate way to wade through the numbers, judge a company's performance and make profitable investment decisions. This UK Adaptation focuses on the UK financial market with the FTSE index as the focus of the book.

Interpreting Company Reports and Accounts Geoffrey Holmes, Alan Sugden, 1999. Published accounts are often not easy to understand and are sometimes downright misleading, but to those who know how to read them, they provide the most readily available source of information on a company's activities, its profitability, and its prospects. This book guides the reader through the conventions and complexities of reports and accounts, explaining how to assess the financial and trading position of a company from year to year, how to spot undue risk-taking, where and how to look for clues on the quality of management, and how to detect where window-dressing has been used to disguise poor results. In 1990, the authors wrote that company accounting is currently in a state of flux, confusion, and controversy. It is now in much better shape. In ten years, 15 Financial Reporting Standards (FRSs), countless Financial Reporting Exposure Drafts (FREDs), a host of other documents, and for the first time in the UK, an exposure draft Statement of Principles of Financial Reporting have been produced by the Accounting Standards Board (ASB).
