The Map that Came to Life Henry James Deverson,1963 **The Map that Came to Life** H. J. Deverson,1952 **The Map that Came to Life** H. J. Deverson,1956 **Then Came Life** Geralyn Lucas,2014-10-02

The author of *Why I Wore Lipstick to My Mastectomy* dares all women who have had a stumble in life to harness their fighting spirit and stand back up with courage and optimism. One mastectomy, two C sections, three pant sizes and lots of red lipstick later, Geralyn Lucas is dealing with the same issues as other women her age. Her miracle babies have grown into a typical tween with a fierce eye roll for her mom's failings and a tornado of a little boy who won't play by his preschool's rules. Her storybook romance with her husband has spiraled into couples therapy and her perfect if demanding corporate job as a TV producer has abandoned her for L.A. When she looks in the mirror at her hard-won wrinkles, all she wants is Botox. Celebrating her sweet sixteen cancer anniversary, she's thankful for her second chance and ready to be daring, but can she survive life's new ups and downs with the same courage she's always had? With an infectious, hilarious voice and a true sense of empowerment, Geralyn harnesses her fighting spirit to live life loudly and lustily and to grab on to all the moments that might never have happened. Knowing she can only pedal forward, she mines every day for boldness, joy, and gratitude and eventually falls in love with life again.

Then Came Life is not just for cancer survivors; it's for life survivors, a call to rediscover the resilience and optimism it takes to reinvent yourself at any age.

The Social Life of Maps in America, 1750-1860 Martin Brückner, 2017-10-26. In the age of MapQuest and GPS, we take cartographic literacy for granted. We should not; the ability to find meaning in maps is the fruit of a long process of exposure and instruction. A carto-coded America, a nation in which maps are pervasive and meaningful, had to be created. *The Social Life of Maps* tracks American cartography's spectacular rise to its unprecedented cultural influence. Between 1750 and 1860, maps did more than communicate geographic information and political pretensions; they became affordable and intelligible to ordinary American men and women looking for their place in the world. School maps quickly entered classrooms where they shaped reading and other cognitive exercises; giant maps drew attention in public spaces; miniature maps helped Americans chart personal experiences. In short, maps were uniquely social objects whose visual and material expressions affected commercial practices and graphic arts, theatrical performances, and the communication of emotions. This lavishly illustrated study follows popular maps from their points of creation to shops and galleries, schoolrooms and coat pockets, parlors and bookbindings. Between the decades leading up to the Revolutionary War and the Civil War, early Americans bonded with maps. Martin Brückner's comprehensive history of quotidian cartographic encounters is the first to show us how.
