sustantivo

la acción de retrasar o posponer algo; su primer consejo es evitar la procrastinación.

Quién hubiera pensado que después de décadas de lucha contra la procrastinación, el diccionario, de todos los lugares, tendría la solución.

Evite la dilación. Tan elegante en su sencillez.

Mientras estamos aquí, asegurémonos de que las personas obesas eviten comer en exceso, las personas deprimidas eviten la apatía y que alguien diga a las ballenas varadas que deben evitar estar fuera del océano.

No, "evitar la procrastinación" es solo un buen consejo para los falsos procrastinadores, esas personas que dicen: "Entro en Facebook un par de veces al día en el trabajo. ¡Soy un procrastinador!" Las mismas personas que le dirán a un procrastinador real algo como: "No procrastines y estarás bien".

Lo que ni el diccionario ni los falsos procrastinadores entienden es que para un verdadero procrastinador, la procrastinación no es opcional, es algo que no saben cómo no hacer.

In college, the sudden unbridled personal freedom was a disaster for me—I did nothing, ever, for any reason. The one exception was that I had to hand in papers from time to time. I would do those the night before, until I realized I could just do them through the night, and I did that until I realized I could actually start them in the early morning on the day they were due. This behavior reached caricature levels when I was unable to start writing my 90-page senior thesis until 72 hours before it was due, an experience that ended with me in the campus doctor's office learning that lack of blood sugar was the reason my hands had gone numb and curled up against my will. (I did get the thesis in—no, it was not good.)

Even this post took much longer than it should have, because I spent a bunch of hours doing things like seeing this picture sitting on my desktop from a previous post, opening it, looking at it for a long time thinking about how easily he could beat me in a fight, then wondering if he could beat a tiger in a fight, then wondering who would win between a lion and a tiger, and then googling that and reading about it for a while (the tiger would win). I have problems.

To understand why procrastinators procrastinate so much, let's start by understanding a non-procrastinator's brain:
