Integrating Educational Technology Into Teaching, 4/E (With Cd) Roblyer, 2007-09 [The Caribbean in a](#)

Changing World Stephanie Fullerton-Cooper, Erica Gordon, Livingston Smith, 2017-06-23 This collection is a critical reflection of the evolution of Caribbean countries since the demise of the West Indies Federation in 1962. At this historical juncture some territories opted for independence while others remained dependent territories. The volume examines Caribbean societies in comparative and general ways covering aspects of their ongoing development and challenges. It covers such areas as Caribbean integration, the state of human capital and social policy in the region, the education sector, Caribbean economic sustainability and significantly the physical environment of the Caribbean. A central question has always been: should these territories have gone independent or stayed under some British tutelage? The book addresses this question illustrating that these island states have made considerable progress especially in the maintenance and deepening of democratic practices.

How to Change Instructional Leaders' Perception. Integrating Education Media Technology in Classroom Teaching Getnet Eshetu, 2015-08-06 Research Paper postgraduate from the year 2015 in the subject Pedagogy Media Pedagogy language English abstract This study explores factors that affect instructional leaders' perception of the role of media in classroom teaching in Amhara region of Ethiopia. To achieve the objective a one sample survey method using questionnaire and focus group discussion was employed. The participants are 168 instructional leaders: 108 principals, 60 supervisors with different training, teaching and school leadership experience selected by convenience sampling. The two roles of media that are selected are media used as supplement and substitute for the teacher in classroom teaching. Both quantitative and qualitative techniques were used to analyze the data gathered. The research answered seven research questions. The findings revealed that there were significant differences in perceptions of instructional leaders. Media training that they do have in the past contributed to some extent but neither experience in teaching nor in leadership has significant contribution for perception. The reasons behind instructional leaders' perception are mainly their belief that media has no or less impact on student motivation but traditional roles of teachers has some impact. The identified factors that affect perception are negative beliefs: irresponsibility, ignorance, lack of willingness and know how. The study discusses the findings and makes some recommendations.

Die Medien nutzten die Möglichkeit ein gesellschaftlich totgeschwiegenes Thema populistisch darzustellen. Seither wird die Bedeutung der Suizidforen auch in Fachkreisen widersprüchlich debattiert.
