Unflinching Zeal Robin Higham,2012-09-15 This consequential work by a pioneer aviation historian fills a significant lacuna in the story of the defeat of France in May June 1940 and more fully explains the Battle of Britain of July October of that year and the influence it had on the Luftwaffe in the 1941 invasion of the USSR Robin Higham approaches the subject by sketching the story and status of the three air forces the Arm e de l Air the Luftwaffe and the Royal Air Force their organization and preparation for their battles He then dissects the the campaigns their losses and replacement policies and abilities He paints the struggles of France and Britain from both the background provided by his recent Two Roads to War From Versailles to Dunkirk NIP 2012 and from the details of losses tabulated by After the Battle s The Battle of Britain 1982 2nd ed and Peter Cornwell s The Battle of France Then and Now 2007 as well as in Paul Martin s Invisible Vainqueurs 1990 and from the Luftwaffe summaries in the British National Archives Cabinet papers One important finding is that the consumption and wastage was not nearly as high as claimed The three air forces actually shot down only 19 percent of the number claimed In the RAF case in the summer of 1940 44 percent of those shot down were readily repairable thanks to the salvage and repair organizations This contrasted with the much lower 8 percent for the Germans and zero for the French Brave as the aircrews may have been the inescapable conclusion is that awareness of consumption wastage and sustainability were intimately connected to survival *HWM* ,2005-01 Singapore s leading tech magazine gives its readers the power to decide with its informative articles and in depth reviews
