beginner's guide to 3D design and printing provides librarians with lessons, tips, and instructions for integrating these technologies into the K-12 standards-based curriculum. This fascinating primer illustrates how 3D printing can be used in different curriculum areas to engage and inspire your K-12 students. You'll gain insight into the printing process and learn how to best utilize multi-dimensional equipment in your library. Written in non-technical language, the book introduces the technology, shows how to get started, and offers ideas for creating project-based learning models. Author Lesley M. Cano, a school librarian with considerable experience integrating 3D printing into the school curriculum, discusses how to implement this technology in projects across disciplines ranging from math to fine arts and grade levels K through 12. She offers concrete examples that can be easily adjusted to fit subject areas and developmental needs. The title also includes step-by-step instructions for using freely available software tools along with practical tips and strategies to manage implementation of this innovative new technology.

[Play with XYZprinting da Vinci 3D Printers](#) XYZprinting Studio, Allan Lin, 2014-11-13. 3D printing is one of the most popular activities and industries in the 21st century. It has turned into an independent product unit, although it was once a process during industrial production that was called rapid prototyping. The goal of this book is to lead you discovering the secret of 3D printing. Through easy-to-read and understandable contents, you are going to realize the well-known technologies of 3D printing. Besides, you can regard this book as a guide of learning da Vinci 3D printers' operations. The book contains several parts, including 3D printing technologies, 3D printer composition, 3D printing procedure, e.g., modeling, slicing, and printing, relative software knowledge, 3D printer maintenance, and online resources, etc. There are also online contents that are provided with hyperlinks in order to give you deeper exploration. Please let us know if you have any question by emailing us to XYZ_publisher@xyzprinting.com. Your advice will prompt us to a better publisher and your learning partner. Keyword: 3D printing, 3D printer, da Vinci 3D printer, FFF, FDM, XYZprinting, XYZ, XYZware.
