Career Planning For Teens Illustrated Guide:

Handbook of Career Development Gideon Arulmani, Anuradha J. Bakshi, Frederick T. L. Leong, A. G. Watts, 2014-02-08

This book is focused on work occupation and career development themes that are fundamental to a wide range of human activities and relevant across all cultures. Yet theorizing and model building about this most ubiquitous of human activities from international perspectives have not been vigorous. An examination of the literature pertaining to career development counseling and guidance that has developed over the last fifty years reveals theorizing and model building have been largely dominated by Western epistemologies. Some of the largest workforces in the world are in the developing world. Career guidance is rapidly emerging as a strongly felt need in these contexts. If more relevant models are to be developed, frameworks from other cultures and economies must be recognized as providing constructs that would offer a deeper understanding of career development. This does not mean that existing ideas are to be discarded. Instead, an integrative approach that blends universal principles with particular needs could offer a framework for theorizing research and practice that has wider relevance. The central objective of this handbook is to draw the wisdom and experiences of different cultures together to consider both universal and specific principles for career guidance and counseling that are socially and economically relevant to contemporary challenges and issues. This book is focused on extending existing concepts to broader contexts as well as introducing new concepts relevant to the discipline of career guidance and counseling.

Handbook of Adolescent Transition Education for Youth with Disabilities Karrie A. Shogren, Michael L. Wehmeyer, 2012-03-12

Transition from secondary education to adulthood represents a period during which adolescents with disabilities face multiple responsibilities and changing roles that include establishing independence, attending postsecondary education or training, developing social networks, choosing a career, participating in their communities, and managing healthcare and financial affairs. Sponsored by the Division of Career Development and Transition (DCDT) of the Council of Exceptional Children, this handbook provides a comprehensive resource to the communities of educators, related service and agency personnel, families, caretakers, counselors, and other stakeholders who facilitate these complex transitions to adulthood for adolescents with disabilities. Comprehensive. This comprehensive volume includes coverage of historical foundations, policy, transition programming and planning, development of student skills, and program structure. It also recommends transition supports for students with specific disabilities. Organizing Taxonomy. The book is organized around a well-recognized taxonomy for adolescent transition used by many states to design and reform their transition services. Expertise. The volume editors are past presidents of the Council for Exceptional Children's Division on Career Development and are leaders in transition research and practice. Contributors are well-recognized for their expertise in transition. Chapter Structure. Each chapter includes a discussion of evidence-based research, recommended practices, suggestions for transition personnel and families, and additional resources. This book is appropriate for researchers and graduate-level instructors in

special education and vocational education inservice administrators and policy makers and transition service providers
