

## Certified Information System Banker (in Remote Proctored mode) Rules & Syllabus 2020

### OBJECTIVE

The evolution of Information Technology (IT) affects the banking environment in many significant ways. It has changed the banking practices and altered the ways in which systems should be controlled and it has also increased the need for well-educated banking professionals in the fields of Information Systems (IS), governance, assurance, security and control.

In the information based banking environment, banking professionals who are technically competent in IS, or IS specialists who understand security, control and banking operations, are in great demand for IS audit careers. The IS specialist and the IS auditor must continuously receive training to upgrade their knowledge, skills and abilities.

The Certified Information System Banker course has been specially designed to meet the needs of IS professionals.

This comprehensive course aims:

- (i) To develop functional expertise in the areas of system identification, development, implementation and designing.
- (ii) To develop expertise in computer security, implementation of threat prevention and detection systems, designing and testing risk mitigation strategies.
- (iii) To develop skills for objective assessment of information system control, information privacy and integrity.
- (iv) To study the tools that provides assurance in the system by measuring against four essential principles: availability, security, integrity and maintainability.
- (v) To aid the bank management in developing sound information system audit, control and security functions by providing criteria for personal selection and development.

### REMOTE PROCTORED MODE

Remote proctoring allows candidates to take an examination at a location of his/her choice while ensuring the integrity of the examination. These systems require students to confirm their identity, and, during the examination, the system monitors students through video, mic, etc. looking for behaviour that could indicate unfair practices (cheating). Examinations are conducted over internet using a Desktop/Laptop. Taking examination using any other device is not permitted e.g. mobile, tabs, etc.

### FOR WHOM

- (i) Banking professionals who are technically competent in IS, or
- (ii) IS specialists who understand security, control and banking operations, or
- (iii) Any banker desiring to join the IS stream.

### DIPLOMA IN INFORMATION SYSTEM AUDIT (DISA)

Candidates who clear all of the following three Certificate examinations under the revised syllabus will be given a "DIPLOMA IN INFORMATION SYSTEM AUDIT (DISA)" from May 2017:

- a) Certificate Examination in IT Security (Revised Syllabus)
- b) Certificate Examination in Prevention of Cyber Crimes and Fraud Management (Revised Syllabus)
- c) Certificate Examination in Information System Banker (Revised Syllabus)
