Cybersecurity Program Development for Business Chris Moschovitis,2018-04-06 This is the book executives have been waiting for It is clear With deep expertise but in nontechnical language it describes what cybersecurity risks are and the decisions executives need to make to address them It is crisp Quick and to the point it doesn t waste words and won t waste your time It is candid There is no sure cybersecurity defense and Chris Moschovitis doesn t pretend there is instead he tells you how to understand your company s risk and make smart business decisions about what you can mitigate and what you cannot It is also in all likelihood the only book ever written or ever to be written about cybersecurity defense that is fun to read Thomas A Stewart Executive Director National Center for the Middle Market and Co Author of Woo Wow and Win Service Design Strategy and the Art of Customer Delight Get answers to all your cybersecurity questions In 2016 we reached a tipping point a moment where the global and local implications of cybersecurity became undeniable Despite the seriousness of the topic the term cybersecurity still exasperates many people They feel terrorized and overwhelmed The majority of business people have very little understanding of cybersecurity how to manage it and what s really at risk This essential guide with its dozens of examples and case studies breaks down every element of the development and management of a cybersecurity program for the executive From understanding the need to core risk management principles to threats tools roles and responsibilities this book walks the reader through each step of developing and implementing a cybersecurity program Read cover to cover it s a thorough overview but it can also function as a useful reference book as individual questions and difficulties arise Unlike other cybersecurity books the text is not bogged down with industry jargon Speaks specifically to the executive who is not familiar with the development or implementation of cybersecurity programs Shows you how to make pragmatic rational and informed decisions for your organization Written by a top flight technologist with decades of experience and a track record of success If you re a business manager or executive who needs to make sense

of cybersecurity this book demystifies it for you *Program Governance* Muhammad Ehsan Khan,2014-09-05 Although program management has received much attention in recent books program governance remains a relatively new subject While selected books and standards touch on this important topic few are devoted to program governance as a subject This book fills that need Program Governance provides a thorough understanding of governance while reviewi
