

CHAPTER 12, APPENDIX C

RECOMMENDED STANDARDS FOR E&SPC PLANS

12C.1 GENERAL

The Erosion and Sediment Pollution Control (E&SPC) Plans include both a set of drawings for construction and a technical narrative. The Department typically titles the drawings for construction the Erosion and Sediment Pollution Control Plans as discussed in 12C.1. The required E&SPC technical narrative is discussed further in 12C.2. The following guidance is a combination of PA DEP's recommendations for developing an E&SPC Plan, and PennDOT's standards and preferences. It is important to note, however, that preferences may vary between County Conservation Districts, and even PA DEP regional offices. Therefore, it is important to coordinate with the agency that will be reviewing the E&SPC Plan.

Standards in Publication 144, Design Manual, Part 3, Plans Presentation, related to borders, title blocks, and general plan presentation must be applied. However, not all of the information pertinent to E&SPC Plans is described in Publication 144, Design Manual, Part 3, Plans Presentation; complementary information is described below.

All drawings included in the E&SPC Plan must be legible. Letters and numbers used on the plans must be readable. Symbols used should be readily distinguishable from each other, and clutter should be avoided. Drawings should be clearly labeled and dated. Revised drawings must have the date of each revision shown. Sufficient space should be provided on the top sheet for the approval stamp and signature of the reviewing agency. The location of this space should be such that the stamp and signature are visible when the drawing is folded.

At least one set of drawings submitted to any agency for review must be full size. To facilitate review, it is recommended that a composite work area plan (or cell map) be submitted in addition to the regular plans. This composite plan should show the entire project, or major portions thereof, with proposed roadways, E&SPC BMPs, and staging or work area boundaries.

The name of the plan designer along with his/her contact information should be provided on the cover sheet, as well as in the narrative. Also provide the District's contact information on the cover sheet and in the narrative.

12C.2 PLAN DRAWINGS

Plan drawings contain all of the information that the contractor needs to build the project. Information not needed by a contractor, such as supporting calculations or manufacturer's test data, should be placed in the E&SPC narrative. In general, the plan drawings should contain:

- Cover sheet
- Detail sheets
- Plan sheets

The engineer responsible for the plan must place a black ink rubber stamp seal and his/her signature on the cover sheet. Either a black ink rubber stamp seal or a facsimile seal must be placed on all subsequent sheets.

Separate plans must be included for off-site borrow or disposal areas, if known, which are part of the project. If off-site borrow and disposal areas are not known, a general note should be added to the plan stating that the contractor must develop and obtain approval of a separate erosion E&SPC Plan for each work area not detailed in the plan located outside of the limits of disturbance. These drawings must include all information required on the main drawings.

A. **Cover Sheet.** At a minimum, the cover sheet of the drawing set should contain the following information:

- Title

Chapter 12 Appendix C Dotate

Ying-Ying Zheng

Chapter 12 Appendix C Dotate:

Trash to Cash Fran Berman, 2020-03-10 If your company wants to save money currently spent on waste hauling disposal and clean up costs while protecting the environment this is the book for you Let *Trash to Cash* serve as your implementation guide to an effective on going corporate paper recycling and waste reduction program Berman addresses the major issues and realities surrounding paper consumption and recycling This prescriptive guide can show you how to achieve a financially successful program for your company Fully illustrated *Trash to Cash* contains practical and insightful case studies that demonstrate how successful programs have been created and kept alive at AT T McDonald s Merrill Lynch and other role model corporations Learn how to be on target environmentally while saving your company thousands even millions of dollars
