Chapter 10

PP&E:

- Assets of durable nature, referred to as plant assets or fixed assets
 - o Used in the operations of the business
 - o Long-term in nature and usually depreciated
 - o Possess physical substance
- When first bought the entire cost is placed on the balance sheet
 - o As it gets used we depreciate except for land
- Only PP&E recorded in financial statements should be that used in operations
 - o PP&E acquired for future speculation of expansion is an *investment*
 - o PP&E held for resale should be classified as *inventory*
- Recorded at *fair value* when purchased

What is included in the amount when first acquired?

- Cost to obtain asset
- Cost to bring it to the desired location
- Cost to bring up to condition for *its intended use*

- The process of recording these costs into the balance sheet asset accounts in PP&E is called **capitalization**

- expenditures in a company can either be
 1. expensed directly to the income statement or
 2. capitalized (recorded into a balance sheet asset account) (i.e. PP&E, inventory, supplies)

For PP&E

- The amount capitalized becomes the historical cost
- PP&E stays at historical cost—we do not apply any subsequent fair value market re-measurement unless it is permanently impaired

Land

- Purchase price
- Closing costs (title to the land, attorney's fees, and recording fees)
- Costs of grading, filling, draining, and clearing (to get it ready for its intended use)
- Costs of demolishing any structure on the land less salvage value (to get it to its intended use)
- Assumption of any liens, mortgages or encumbrances on the property
- Additional costs that have *indefinite life* (no need to

Land Improvements:

- Improvements with limited lives
 - Costs for driveways, walkways, fences, parking lots
 - Recorded in land improvements account
 - Limited life—depreciated

Equipment

- Includes all expenditures incurred in acquiring the equipment and preparing it for use
 - Purchase price
 - Freight and handling charges
 - Insurance on the equipment while in transit
 - Cost of special foundations if required
 - Assembling and installation costs
 - Costs of conducting trial runs
 - *Limited life: Depreciated*

Buildings

- includes all costs related directly to the acquisition or construction
 - If acquired:
 - o Acquisition price and related costs
 - If constructed:
 - o There are several costs that can be capitalized
 - *Limited Life: Depreciated*

Constructed Assets:

- There are special challenges in figuring out what to include as a part of construction costs

■ Costs Typically include

- o Direct Costs: Materials and Labor
- o Indirect Costs (overhead costs): utilities, indirect materials, indirect labor, property taxes, permits, fees
- o If the construction project is financed through borrowings, interest paid on the loans are usually included in the cost

Interest Costs Incurred as a result of financing the Construction of Assets:

- Only capitalize until the asset being constructed is ready for intended use—the capitalization eventually makes it to income statement through depreciation
