Journal of Chinese Religions ,2016 **Chinese Religions** J. Ching,2016-07-27 This is a comprehensive work on the religions of China As such it includes an introduction giving an overview of the subject and the special themes treated in the book as well as detailed chapters on ancient religions Confucianism Taoism Buddhism Chinese Islam Christianity in China as well as popular religion Throughout the book care is taken to present both the philosophical teachings as well as the religious practices of the religious traditions and reflections are offered regarding their present situation and future prospects Comparisons are offered with other religions especially Christianity *The Perception of Christianity as a Rational Religion in Singapore* Clive S. Chin,2017-03-23 This book evaluates the common criticism that Christianity in Asia is westernized Since the 1980s Asian evangelical theologians and missiologists argue that the intrusion of Western theology is responsible for the Western and hence alien expressions of Christianity in Asia Yet in Singapore the number of Christians has increased over the last few decades Empirical evidence demonstrates that younger Chinese Singaporeans convert from Buddhism or Taoism to Christianity partly because they perceive it as a rational religion over Buddhism or Taoism which are viewed as irrational or superstitious Not only do many converts favor Christianity as a rational religion but they do not regard Christianity as a Western religion at the point of their conversion What accounts for those recent developments This study explores the processes of modernization and globalization as important factors impacting religious change in Singapore Personal contextual and structural elements actually influence one s religion of choice In facilitating effective mission one must qualify the use of the categories Asian and Western because religious and cultural boundaries overlap What matters most in missiology is discerning how the gospel of Jesus Christ engages the self understanding and lived realities of ethnic and religious others in diverse cultural settings **Chinese Religion Through Hindu Eyes** Benoy Kumar Sarkar,1916

Religions in Ancient China Herbert Giles,2019-12-06 Throughout history China has been the home and destination of many religious and philosophical traditions Confucianism and Taoism in addition to Buddhism are the so called three doctrines or teachings which have played an important role in shaping Chinese culture The elements of these three belief systems are incorporated into the traditional Chinese religion that is worship devoted to local gods and ancestors this has always been and continues to be the religion of the majority of the population family oriented and not requiring exclusive adherence which allows the practice or expression of personal beliefs of different faiths at the same time Some scholars prefer not to use the term religion in reference to Chinese belief systems suggesting instead that it be cultural practices systems of thought and philosophies as their most appropriate definition While Confucianism in its religious aspect

corresponds to the traditional religion of worship of local gods and ancestors Taoism has developed as an ecclesiastical movement distinct from the common religion since the 1st or 2nd century Buddhism was introduced in the 1st century and grew to have a strong impact in China which it still preserves today Today s Chinese state officially recognizes five religions managed through centralized institutions Buddhism Taoism Protestantism Catholicism and Islam Traditional religion in all its forms even if not centralized at the bureaucratic level enjoys freedom According to statistics 70% of Chinese people practiced traditional religion including 13% who practiced traditional cults in a Taoist doctrinal or ritual framework or popular religions influenced by Taoism while those who identified themselves only as initiated Taoists were 0 8% the term Taoist in China is traditionally reserved only for Taoist priests or those who undertake direct discipleship under their leadership and is not traditionally extended to the multitude of lay followers The adherents to Buddhism were 14% and of these the formally initiated Buddhists formed 1 3% Christians were 2 4% of whom 2 2% were Protestants and 0 2% were Catholics Muslims were 1 7% The remaining 13% of the population was not religious they were atheist agnostic or had not declared any preference Confucianism as a religious designation is popular among intellectuals although there are various popular movements of Confucian origin *Annual Review of the Sociology of Religion. Volume 11 (2020)* Nanlai Cao, Giuseppe Giordan, Fenggang Yang, 2020-12-15 As China is being increasingly integrated into the global economy more and more Chinese people live transnational lives and practice religion globally So far scholarship of the relationship between religion and globalization in the Chinese religious field has primarily been set in the historical context of the encounter between Western Christian missionaries and local Chinese agents and little is known about a global Chinese religious field that is in the making The Annual Review of the Sociology of Religion volume 11 Chinese Religions Going Global seeks to challenge the dichotomous ordering of the western global and the Chinese local and to add a new perspective for understanding religious modernity globally Contributors from four continents who represent a range of specialisms apply social scientific methods in order to systematically research the globalization of Chinese religions *Chinese Religions* Christian Jochim, 1986 Covers Confucianism Taoism and Chinese Buddhism focusing on the interaction between religion and aspects of Chinese culture such as the family the community the arts etc *The Many Worlds of Circus* Robert Sugarman, 2009-05-27 Acrobats and manipulators of objects trained animals and clowns have been performing throughout history In the eighteenth century the invention of the circus ring provided a focus for the activities and the modern circus was born Once the circus was the most spectacular entertainment many Americans saw When the supply of cheap labor disappeared and other forms of entertainment became available the giant circuses shrank and in the last quarter of the twentieth century new one ring circuses returned The Circus and Circus Culture area of the Popular Culture Association has been examining circus history circus life the relationship of circus to society and the impact of circus on the visual and literary arts since 1997 This book is a collection of papers from its annual conferences This fascinating collection showcases the transnational richness and
