**Summary & Study Guide - Civilization** Lee Tang, 2019-05-02 Why does Western civilization dominate the rest of the world This book is a summary of *Civilization The West and the Rest* by Niall Ferguson The central question is Why did the West dominate the Rest and not vice versa The book describes six concepts that the West has developed that allow them to leap ahead of the Rest unleashing the Industrial Revolution and increasing human productivity Six hundred years ago Ming China and Ottoman Turkey dominated the world civilizations while Western Europe was a miserable backwater devastated by incessant war and disease But today Western civilization has risen to global dominance How has the West overtaken its Eastern rivals in the past 500 or so years In *Civilization* Niall Ferguson argues that beginning in the 15th century the West developed six powerful concepts that the Rest lacked competition science property rights medicine consumerism and work

ethic These six killer apps allowed the West to leap ahead of the Rest unleashing the Industrial Revolution and increasing human productivity Yet now the days of Western predominance are numbered because the Rest are adopting these same concepts while the West has lost faith in its own civilization Read this book and learn how these six killer apps help the West dominate the world This guide includes Book Summary helps you understand the key concepts Online Videos cover the concepts in more depth Value added from this guide Save time Understand key concepts Expand your knowledge World Christianity Lalsangkima Pachuau,2018-07-17 Christianity is vibrant and growing in the non western majority world and Christianity is changing as a result Pachuau surveys the current trending approaches to recognizing and investigating world Christianity and explores the salient features of the demographic changes that mark a measurable shift in the center of gravity from the northwest part of the globe to the southern continents This shift is not just geographical World Christianity is ultimately about the changing and diversifying character of Christianity and a renewed recognition of the dynamic universality of Christian faith itself Christianity is a shared religion in that people of different cultures and societies make it their own while being transformed by it Christianity is translatable and adaptable to all cultures while challenging each with its transformative power Pachuau also charts the theological reestablishment of the missionary enterprise founded on understandings of God s mission in the world mission Dei a mission of cross cultural gospel diffusion for missionary advocates in the majority world but one of near neighbor missional engagement for the contagious Charismatic Christianity of the majority world This book is both a descriptive study and a thoughtful analysis of world Christianity s demographics life representation and thought The book also gives an account of the historical emergence of World Christianity and its theological characteristics using a methodology that stresses the productive tension between the universal and particular in understanding a fundamentally adaptable Christian faith The West Versus the Rest and The Myth of Western Exceptionalism Imad A. Moosa,2023-02-28 In this book the author attempts to debunk some myths about Western exceptionalism and to evaluate critically the characteristics that make the West superior to the Rest The author suggests that the West does not represent a homogenous group of countries and that the most common characteristic of the core Western countries is imperialism The author goes on to provide a detailed critique of the proclaimed characteristics of Western countries including democracy human rights judicial independence transparency the rule of law and exclusive contribution to science and technology A critique is presented of the views expressed by Samuel Huntington Francis Fukuyama and Niall Ferguson arguing that they do not recognize the historical fact that civilizations rise and fall It is argued that the Western economic system which is based on neoliberalism has adverse consequences for democracy morality and peace as well as inequality poverty and homelessness Written in a simple but powerful language this book is a must read for those interested in international relations and anyone interested in current affairs The Army Lawyer ,2013-07 **The West and the Rest of Us** Chinweizu,1987 What really happened to the rest of the world under Western expansion How is the backlash to

that expansion contributing to the global crisis of today The West and the rest of us documents that expansion and investigates its predatory nature It then focuses as a case study upon the Euro African connection of the past five hundred years showing also the role of African complicity in the subjugation of Africa by the West In doing so Chinweizu examines areas of African history that have been deliberately veiled Black Slavers how they cooperated in preparing Africa for conquest Unequal exchange the mechanism used to impoverish Africa The myths of racism their usefulness as ploys to keep Africa oppressed African independence a fake product of the grand fraud of decolonization The poorfare state Africa in the grip of Western aid and maldevelopment The African elite the spiritual descendants and operational equivalents of the Black Slavers This new edition updates the account by examining the faltering of Western power under the impacts of Vietnam and OPEC It looks into the subsequent Third World campaign for a New International Economic Order and why it failed It shows how inhibited by the privileges they enjoyed as political supervisors of neo colonial rentier states the elites of most Third World states preferred Cargo Cult Maldevelopment to development and declined to force a general economic decolonization even after OPEC had shown them how to proceed The ending of neo colonialism was thus postponed not simply by the intransigence of the West but with the complicity of Third World elites themselves Back cover of the paperback edition

**Towards the Dignity of Difference?** Dr Mojtaba Mahdavi, Professor W Andy Knight, 2012-10-28 This volume suggests that there is a third way of addressing global tensions one that rejects the extremes of both universalism and particularism This third way acknowledges the dignity of difference and promotes both self respect and respect for others It is also a radical call for an epistemic shift in our understanding of us other and good evil The authors strengthen their alternative approach with a practical policy guide by challenging existing policies that either exclude or assimilate other cultures that wage the constructed global war on terror and that impose a western neo liberal discourse on non western societies

What the Rest Think of the West Laura Nader, 2015-09-08 Over the past few centuries as Western civilization has enjoyed an expansive and flexible geographic domain Westerners have observed other cultures with little interest in a return gaze In turn these other civilizations have been similarly disinclined when they have held sway Clearly though an external frame of reference outstrips introspection we cannot see ourselves as others see us Unprecedented in its scope What the Rest Think of the West provides a rich historical look through the eyes of outsiders as they survey and scrutinize the politics science technology religion family practices and gender roles of civilizations not their own The book

emphasizes the broader figurative meaning of looking west in the scope of history Focusing on four civilizations Islamic Japanese Chinese and South Asian Nader has collected observations made over centuries by scholars diplomats missionaries travelers merchants and students reflecting upon their own Wests These writings derive from a range of purposes and perspectives such as the seventh century Chinese Buddhist who goes west to India the missionary from Baghdad who travels up the Volga in the tenth century and meets the Vikings and the Egyptian imam who in 1826 is sent to Paris to study the French The accounts variously express critique adoration admiration and fear and are sometimes humorous occasionally disturbing at times controversial and always enlightening With informative introductions to each of the selections Laura Nader initiates conversations about the power of representational practices

**The Clash of Civilizations?** Salim Rashid, 1997 A volume of critical response from representatives of Islamic and Confucian cultures to Samuel P Huntington's provocative thesis in which he asserted the West was facing an unavoidable collision with the two civilizations A reprint of Huntington's essay is provided

*The Ethical Crises of Civilization* Leslie Lipson, 1993-08-10 From the crisis confronting the former Yugoslav state to an increase in crime in our cities humanity today has arrived at a perilous crossroad According to Leslie Lipson we have arrived at a critical stage in human history a stage framed in a lowering of ethical standards The Ethical Crises of Civilization examines those periods in history where similar crossroads occurred crossroads that could serve as examples for confronting and solving today's problems Lipson argues that through such an examination of the past humanity might be able to comprehend what is at stake and be impelled to collective and individual action The Ethical Crises of Civilization is a book that should be read by all scholars and students in a wide array of disciplines including history political science religious studies philosophy anthropology and sociology About this volume This book is written in the tradition of Spengler and Toynbee but my focus differs sharply from theirs I am attempting to evaluate the course of civilization its benefits and its curses at a time when its potentiality for either good or evil has been vastly increased My study has drawn principally on the record of four major civilizations still in existence today the Chinese Indian Islamic and Western The values and the standards of judgement are those of a humanist emphasizing our needs in this life in this world and not believing in salvation in some other existence I consider that the present system of government by so called nation states is becoming obsolete and will be replaced in the Twenty First Century and that the organized religious are responsible for dividing humanity into separate and often hostile groupings Leslie Lipson Ph D Praise for this volume Professor Lipson draws on his deep interest in history to assess the progress of civilizations toward increasing their ethical content He sees a growing awareness of ethical choices advance as well as a growing danger of civilizations self destruction melt down He argues that it is the obligation of a scholar to contribute to the understanding of both ethical issues and values The author treats this difficult subject matter with impressive knowledge humor originality and with literary grace World Affairs Council of Northern California An important and quite original contribution to the large and growing literature on the general theory

of civilization going back in about the last 100 years to Hegel Spengler Brooks Adams Albert Schweitzer Arnold Toynbee and so on Makes an important contribution to this discipline bringing many new ideas into it It has an easy almost conversational style Kenneth E Boulding late of the University of Colorado at Boulder Distinguished Professor of Economics This book attempts something which is very unfashionable in our days It examines sympathetically but critically the thesis that history is progressive that civilizations are improving because their ethical content is increasing And the author does it with wit verve and a marvelous style that makes almost every sentence a joy to read He also displays a most impressive knowledge of history and literature This is an unusual book Despite the difference between my taste and the author s I found it to be an original courageous and highly enlightening inquiry into a subject that cries out for serious treatment not merely tracts that celebrate the end of communism or proclaim the beginning of a new age in which western values no longer dominate or even serve as guidelines in non western parts of the world Its lack of conventionality its intellectual originality ought to appeal to historically minded people who are tired of having their values and judgements debunked by the sound bites of particularistic notions of ethics Ernst B Haas Robson Research Professor of Government University of California at Berkeley Professor Leslie Lipson s newest book *The Ethical Crises of Civilization Moral Meltdown or Advance* is a sweeping examination of the major moral transitions in human history World Affairs Council of Northern California About the author Interpreting the course of human history and using the past as a guide to the present and the future has been Leslie Lipson s abiding intellectual interest In addition to his 33 years of service as Professor of Political Science at the University of California Berkeley he is known in the United States and abroad as an author visiting lecturer and consultant to international agencies He has worked for the United Nations in Brazil and for the Atlantic Institute in Paris he founded the academic discipline of political science in New Zealand and he has lectured under the auspices of the U S I A at universities in Europe and Asia His best known book *The Great Issues of Politics* in print since 1954 and now in its ninth edition has been translated into eight languages and is studied in universities worldwide His other major work *The Democratic Civilization* has also been widely translated and is considered by many to be a classic in its field Of his many articles some have been in the *Encyclopedia Britannica* 1969 edition and in *Unesco s Dictionary of the Social Sciences* Other articles have appeared in professional journals of several countries and in other media Leslie Lipson came to the United States as a Commonwealth Fund Fellow from Balliol College Oxford University where he was a senior scholar and took his doctorate in political science at the University of Chicago The University of California has honored him with the award of the Berkeley Citation In addition to his academic pursuits he is known nationally for his 13 years of participation in the Public Broadcasting System s weekly televised program *World Press* on which he reported the press of Great Britain

**Civilization** Giovanni Borgognone, Patricia Chiantera-Stutte, 2022-09-29 Civilizations or rather narratives about civilizations matter not only as research subjects in textbooks literary and scientific essays but also in politics This seems to be the case in civilizational states such as China Russia Turkey and Syria Also in Western countries in recent decades the notion of civilization has often been used in public discourse political parties and leaders have referred in particular to the need to protect Western civilization calling in this regard for policies to restrict immigration from Muslim countries In 2022 the narrative on civilization was used to legitimize the Russian invasion of Ukraine The studies in this collected volume reconstruct how civilizational paradigms and narratives have been used to explain political relations to define the global order to justify attempts to gain hegemony over particular geopolitical areas and to make predictions on global developments in specific times of crisis In particular this book analyzes the concepts of civilization as they have been used in the intellectual and political discourse in periods particularly critical for global relations and for the consolidation or contestation of the West's dominant role in international national politics and academic discourse

**Global Politics in a Changing World** Richard W. Mansbach, Edward Rhodes, 2006 This unique reader goes beyond the traditional concept of international relations as simply interactions between states It instead addresses all the players in the current global political scene from international companies and intergovernmental organizations to traditional states and terrorist organizations Global Politics blends conceptual writings on international relations with current events coverage from journalistic sources Case materials are drawn from all major geographic regions in order to emphasize the global nature of these issues in the post Cold War period Each chapter approaches the key topics first from a scholarly theoretical view then follows with readings presenting a news current events context The readings provide a stimulus for informed debate and discussion and they encourage students to view daily events as part of a larger process of change
