Project Management Capability Assessment Peter T. Davis, Barry D. Lewis, 2018-09-13. It shows how to assess projects adequately for process improvement or how well an organization performs against a standard measurable framework. Using ISO 21500 as the project management reference point and ISO 15504/33000 as the capability assessment reference, the book shows you how to assess whether your projects are being run according to a specific capability level or support them to reach higher levels of capability.
