Leadership Handbook Elaine Biech,2010-10-25 A looming leadership gap faces most organizations over the next 10 years

Has your organization prepared for the imminent lack of leadership crisis? Do you have a pipeline of developed leaders for the future? Leadership is the most important competency for both individual and organizational success and advancement. As Cynthia D. McCauley of the Center for Creative Leadership notes in her overview, leadership is also a tool designed to help with a particular human dilemma: how to get individuals to work together effectively to produce collective outcomes. When you need to learn more about how to drive success in your organization, where do you turn? To the experts. And *The ASTD Leadership Handbook* provides 48 thought leaders, the names you know and have come to trust, to enable you to learn about every facet of leadership. Here you'll find a substantial and practical collection of wisdom, philosophies, and tools from the most respected authorities on the subject. Within this impressive volume, you'll find five major sections addressing the critical aspects of the field: Leadership Competencies, Leadership Development, Attributes of Successful Leaders, Contemporary Leadership Challenges, and Broadening the Leadership Discussion. In each chapter, leaders share their expertise to help you solve your most pressing leadership challenges. Get the complete table of contents here. The lineup includes leading experts from a broad range of organizations in both the public and private sectors and features a number from the Center for Creative Leadership, ranked by the *Financial Times* as one of the top three leadership development organizations in the world. Many of the authors also provide free tools, which you can get here. If you can invest in only one leadership book, let this be it. You'll have all the insights and applications you need to thoroughly understand and practice its principles, guided by the expertise of those who have literally written the books on leadership.

This new edition is the only book that covers in one volume the new *Leading, Managing, and Developing People* and *Developing Skills for Business Leadership* modules, which are part of the Chartered Institute of Personnel and Development's *Leadership and Management Standards*. Leadership is often cited as the key to an outstanding performing care company, but training is often focused on management rather than leadership. This book brings best leadership practice techniques and modules from outside of the care environment and shows how you can apply them in a care setting to build your confidence and competence as a leader. The book is broken down into three main sections: *Self Leadership*, *Leading Your Team*, and *Leading The Culture*, and each chapter contains practical exercises you can take away and put into practice within your care.
