The Evolution of Military Power in the West and Asia Pauline Eadie, Wyn Rees, 2015-09-16 This book investigates how states in both the West and Asia have responded to multi dimensional security challenges since the end of the Cold War focusing on military transformation Looking at a cross section of different countries this volume assesses how their armed forces have responded to a changing international security context The book investigates two main themes First how the process of military transformation in terms of technological advances and new ways of conducting warfare has impacted on the militaries of various countries These technologies are hugely expensive and the extent to which different states can afford them and the ability of these states to utilise these technologies differs greatly Second the volume investigates the social dimensions of military transformation It reveals the expanding breadth of tasks that contemporary armed forces have been required to address This includes the need for military forces to work with other actors such as non governmental agencies and humanitarian organisations and the ability of armed forces to fight asymmetric opponents and conduct post conflict reconstruction tasks The conflicts in Iraq and Afghanistan exemplified how important the relationship between technological and social transformation has become This book will be of much interest to students of strategic studies military innovation Asian politics security studies and International Relations

Assessing L2 Listening Gary J. Ockey, Elvis Wagner, 2018-08-08 This book is relevant for language testers listening researchers and oral proficiency teachers in that it explores four broad themes related to the assessment of L2 listening ability the use of authentic real world spoken texts the effects of different speech varieties of listening inputs the use of audio visual texts and assessing listening as part of an interactive speaking listening construct Each theme is introduced with a review of the relevant literature and then is examined through either two or three empirical studies The notion of authenticity underlies each of these four themes By creating more authentic test tasks that are similar to real world language tasks test developers can create listening assessments that not only more

effectively assess test takers communicative competence but can also have a positive washback effect on educational systems
