There is not an educator in America today for whom bullying is not a concern and bullying prevention is not a responsibility. Educators need to know bullying facts and trends, what their legal and professional responsibilities are, and research-based best practices for responding to and preventing bullying. Furthermore, educators must recognize the fundamental importance of a positive school climate, an environment where all members of the school community feel safe, supported, and respected, and must know how to promote the values and behaviors that contribute to such a climate. *The Bullying Prevention Book of Lists* offers all this and more in a convenient, accessible format. Designed to provide school administrators, teachers, and support staff with quick access to key information and practical strategies, this book is an invaluable tool for any K-12 school.

**ABC'S for Bully Prevention, Simple as 1-2-3** Mark Johnson, 2014-12-20. Bullying and victimization are not new. They have been around since the beginning of time. ABCs for Bully Prevention Simple as 1 2 3 corresponds the letters of the alphabet to words that relate to victimization, bullying, and intervention. Words are simple yet relevant, a toolbox of different ideas and principles that can be used by all ages: students, teachers, parents, children, preachers, parishioners, correctional workers, law enforcement, supervisors, and employees to educate themselves and others. Concepts challenge the reader to develop an out-of-the-box perspective on how to approach bullying and reduce its negative effects. Author's personal opinion is that children are not born to hate; they are taught to hate. Use this book to reverse that cycle.
