## **Cocaine Nights:**

Cocaine Nights J. G. Ballard, 2010-01-05 From the iconic author of *Crash* and *Empire of the Sun* *Cocaine Nights* features a man who finds himself drawn into a network of drugs pornography and murder in a Spanish resort The remarkable bestseller from one of the giants of modern British literature at once an engrossing mystery and an unnerving vision of a society coming to terms with a life of unlimited leisure When Charles Prentice arrives in Spain to investigate his brother's involvement in the death of five people in a fire in the upmarket coastal resort of Estrella de Mar he gradually discovers that beneath the civilised cultured surface of this exclusive enclave for Britain's retired rich there flourishes a secret world of crime drugs and illicit sex What starts as an engrossing mystery develops into a mesmerising novel of ideas a dazzling work of the imagination from one of Britain's most original and controversial novelists      **Cocaine nights** James Graham Ballard, 1997      Mediterranean Encounters in the City Michela Ardizzoni, Valerio Ferme, 2015-12-03 This book documents and analyzes how the contemporary Mediterranean city manages and negotiates its identity as a result of recent reconfigurations in its cultural religious and social landscape The events of Sept 11 2001 have recast difference as a central trope of identification in urban borderland settings unleashing heated debates about cultural convergences and animating anxieties about an arguable clash of civilizations in modern cities These emerging uncertainties have also grown stronger as the homogenizing forces of globalization unsettle essential principles of the nation state and nationhood and render fixed perceptions of distinctive and singular people and cultures more tenuous Recent scholarship and public discourse have accordingly framed discussions of these encounters around concerns of geo political security and international policy Unfortunately framed within these terms our understanding of how various groups within the Mediterranean metropolis deal with the intensification of difference as a lived experience has remained regrettably thin This volume transcends this limitation and explores new interdisciplinary research paradigms that will help us gain a comprehensive perspective on how complex macro and micro tensions contradictions and similarities are negotiated in building urban identities in the Mediterranean basin The contributors to this volume explore the multi faceted nature of Mediterranean cities and engage a critical discussion of identity production and consumption in the Mediterranean basin By spanning two centuries and examining both the Northern and Southern shores of the Mediterranean the chapters in this book provide a broad and comprehensive investigation of the ways in which recent cultural productions have framed and re imagined the Mediterranean city as a locus of departures arrivals and contested belonging By focusing on cinema photography new media magazines music and literature as different stages for the performative representation of Mediterraneity the authors highlight the vibrancy of the intercultural discourses taking place along the shores of the mare nostrum and provide new perspectives from which to explore the relationship between North and South East and West      **The Empire's of J. G. Ballard** David Ian Paddy, 2015-08-25 J G Ballard once declared that the most truly alien planet is Earth and in his science

fiction he abandoned the traditional imagery of rocket ships traveling to distant galaxies to address the otherworldliness of this world. The Empires of J. G. Ballard is the first extensive study of Ballard's critical vision of nation and empire of the political geography of this planet. Paddy examines how Ballard's self-perceived status as an outsider and exile, the Sheppertonian from Shanghai, generated an outlook that celebrated worldliness and condemned parochialism. This book brings to light how Ballard wrestled with notions of national identity and speculated upon the social and psychological implications of the post-war transformation of older models of empire into new imperialisms of consumerism and globalization. Presenting analyses of Ballard's full body of work with its tales of reverse colonization, psychological imperialism, the savagery of civilization, estranged Englishmen abroad and at home, and multinational communities built on crime, The Empires of J. G. Ballard offers a fresh perspective on the fiction of J. G. Ballard. The Empires of J. G. Ballard: An Imagined Geography offers a sustained and highly convincing analysis of the imperial and post-imperial histories and networks that shape and energise Ballard's fictional and non-fictional writings. To what extent can Ballard be considered an international writer? What happens to our understanding of his post-war science fictions when they are opened up to the language and logics of post-colonialism? And what creative and critical roles do the spectres of empire play in Ballard's visions of modernity? Paddy follows these and other fascinating lines of enquiry in a study that is not only essential reading for Ballard students and scholars but for anyone interested in the intersections of modern and contemporary literature, history and politics.

Jeanette Baxter Anglia Ruskin University, Shanghai made my father arriving in England after WW2 he was a person of the world who'd witnessed extremes of human experience and remained the outsider observing life from his home in Shepperton. 1930s Shanghai, Paris of the East was a mix of international sophistication and violence, unfettered capitalism and acute poverty, American cars, martinis and Coca-Cola, a place marked by death and war. It had a profound influence on my father and his imagination. Dr Paddy's fascinating book explores my father's fiction within an international context and offers a profound reading of a man who always kept his eyes and mind open to the world.

Fay Ballard [The Cambridge Companion to British Fiction: 1980-2018](#) Peter Boxall, 2019-06-27

From 1980 to the present, huge transformations have occurred in every area of British cultural life. The election of Margaret Thatcher in 1979 ushered in a new neoliberal era in politics and economics that dramatically reshaped the British landscape. Alongside this political shift, we have seen transformations to the public sphere caused by the arrival of the internet and of social media, and changes in the global balance of power brought about by 9/11, the emergence of China and India as superpowers, and latterly the British vote to leave the European Union. British fiction of the period is intimately interwoven with these historical shifts. This collection brings together some of the most penetrating critics of the contemporary to explore the role that the British novel has had in shaping the cultural landscape of our time at a moment in the wake of the EU referendum of 2016 when the question of what it means to be British has become newly urgent.

Cord,2017-01-23 This book is the first sustained investigation of the political dimension in the work of J G Ballard A product of and reaction to the cultural socio economic moment commonly designated as the postmodern condition Ballard s oeuvre is read as a continuous and developing meditation on the postmodern examining it specifically as an expression of late capitalism The book shows that at the heart of this meditation lies the question of resistance Drawing on a wide range of concepts and ideas taken from the field of critical theory it argues that in the face of a world marked by an unprecedented expansion of capital in which modernity s grand narratives have been invalidated and in which received forms of political struggle have lost their effectiveness Ballard s fiction commits itself to a deliberately irrational and extreme pataphysical thought in order to develop a new discourse of resistance Against past readings that have construed Ballard s writing as non political decadent or quietist the study thus reveals Ballard as a thoroughly political author committed to a subversive politics In this way the book also constitutes a timely intervention in the ongoing discussion concerning the nature and state of the political
