*International Polymer Science and Technology*, 2000      **New Developments of Polymer Science and Technology**  
Kōbunshi Gakkai (Japan), 1992      **Challenges in Polymer Science and Technology**, 1996      Progress in Polymer and Rubber Technology International Polymer Technology Conference and Exhibition, 2013-11 The main goal of the book was to gather current knowledge of recent advances in polymer science and technology the physical characterization and advanced performance attributes of both synthetic and biological polymeric materials The volume covers six broad topics such as rubber science and technology composites textiles adhesive and coatings process modelling and simulations testing and instrumentation      Polymer Science and Technology,      **The Proceedings of International Seminar of Polymer Science and Technology by Polymer Research Center of Iran** International Seminar of Polymer Science and Technology 1994, Šīrāz, 1994      **The Proceedings of International Seminar of Polymer Science and Technology**, 1994

*Structural Studies of Polymers by Solution Nmr* H.N. Cheng, 2001 Solution state NMR spectroscopy is generally regarded as the premier technique to characterise polymer structure This report provides a timely review of the developments in the NMR of polymers in solution in the past few years An additional indexed section containing several hundred abstracts from the Polymer Library gives useful references for further reading      **World Translations Index**, 1997      *Adhesion and Bonding to Polyolefins* D. M. Brewis, I. Mathieson, 2002 Polyolefins have many and varied applications However they have very poor bonding properties This review discusses ways of improving adhesion and bonding It describes the theories surrounding adhesion of polyolefins and the analysis techniques which have been used to characterise the material surfaces Methods of enhancing adhesion are then discussed An additional indexed section containing several hundred abstracts from the Polymer Library gives useful references for further reading      *Rubber Injection Moulding* J. A. Lindsay, 2012-06 This review has been written as a practical guide to rubber injection moulding Many injection moulding processes produce rejects or scrap because they depend on a b257 of variables To eliminate waste it is necessary to learn how to recognise the variables that cause problems and then experiment to understand their interdependence This can be developed to a fine art and lead towards right first time processing the commercial ideal An additional indexed section containing several hundred abstracts from the Rapra Polymer Library database gives useful references for further reading      *Chemical Characterisation of Polyurethanes* M. J. Forrest, 1999 This review aims to introduce the chemistry of polyurethanes and to examine the different techniques which may be used to analyse these polymers The characterisation of polyurethane starting materials cure reaction polymer structures and molecular c099 and additives and their relationship to the final properties of the polymer are all outlined An additional indexed section containing several hundred abstracts from the Rapra Polymer Library database gives useful references for further reading      Preprints, 5th SPSJ International Polymer Conference, 1994      **The Rubber Age**, 1975      *Integration of fundamental polymer science and technology.
