## CHAPTER 7

### Basic Elements of Planning and Decision Making

Part III of this book is entitled **PLANNING AND DECISION MAKING**. Its fundamental purpose is to discuss the first basic management function—planning and decision making.

Part III has four chapters. Chapter 7 introduces the basic elements of planning and decision making.

Chapter 8 focuses on strategy and strategic planning. Chapter 9 addresses the management of decision making. Entrepreneurship is the focus of Chapter 10.

**Teaching Tip:** Some instructors prefer to cover the material in Chapter 10 separately at the end of the course. If you prefer this method, the chapter is written so that it can be covered “out of sequence.”

#### CHAPTER SUMMARY

Chapter 7 is the first of four devoted to planning and decision making. Its purpose, therefore, is to introduce the basic elements of this management function and to build a foundation for the more detailed coverage of the material that follows in the remaining chapters of the part.

#### LEARNING OBJECTIVES

After covering this chapter, students should be able to:

1. Summarize the function of decision making and the planning process.
2. Discuss the purpose of organizational goals, identify different kinds of goals, discuss who sets goals, and describe how to manage multiple goals.

## **Management 11th Edition Griffin:**

*Fundamentals of Management* Ricky Griffin, 2025-03-24      **Management** Ricky W. Griffin, 2012-05-01 Gain a solid understanding of management and the power of innovation in the workplace with Griffin's MANAGEMENT PRINCIPLES AND PRACTICES 11E International Edition. This dynamic book, known for its cutting-edge research and memorable examples, takes a functional approach to the process of management with a focus on active planning, leading, organizing, and controlling. This book's reader-friendly approach examines today's emerging management topics, from the impact of technology and the importance of a green business environment to ethical challenges and the need to adapt in changing times. Using a proven, successful balance of theory and practice, the author interweaves numerous new and popular cases and learning features, as well as hundreds of well-researched examples, to vividly demonstrate the importance of strong management to any type of organization.

*Organizational Behavior and Management in Health and Medicine* James K. Elrod, John L. Fortenberry, Jr., 2024-07-10 This comprehensive textbook on healthcare organizational behavior and management uniquely bridges theory and practice, directing significant attention toward operationalization in health and medical settings. This blend of theory and practice differentiates the content of this book from that of related academic and professional books that tend to discuss theory at length with limited attention being directed toward practical applications. This approach ultimately affords readers with a working knowledge of the subject matter, which must be mastered to successfully operate healthcare organizations and a real-world skill set for use in practice. The contents of the text encompass a fairly broad spectrum of organizational behavior and management within the context of the healthcare industry and its associated organizations. Among the topics covered: Leadership in Health and Medicine, Motivation in Health and Medicine, Communication in Health and Medicine, Strategy in Health and Medicine, Ethics and Social Responsibility in Health and Medicine, Organizational Culture in Health and Medicine, Groups and Teams in Health and Medicine, Power and Politics in Health and Medicine. Beyond its efficient presentation of core facets of organizational behavior and management, the book features practical insights in each chapter from the authors' experiences as leaders at a health system. These passages share real-world insights, often involving unique applications, innovative thinking, and other creative perspectives from practice. These viewpoints are invaluable for helping readers to ground the theoretical overviews presented in each chapter, bolstering knowledge and understanding. A glossary of organizational behavior and management terminology is also included. *Organizational Behavior and Management in Health and Medicine* serves as a primer featuring principles and practices with intensive application and operational guidance. The text, with its learning objectives, chapter summaries, key terms, and exercises, is ideally suited for professors and students of health administration, medicine, nursing, and allied health. The book also can serve as a refresher for healthcare executives and managers, e.g., administrators, nurses, physicians, and as a useful reference for anyone with an interest in learning about administrative practices in health and medical settings.

**Product and Services Management** George Avlonitis, Paulina

**Business and Environmental Sustainability** Sigrun M. Wagner, 2020-07-19 Environmental sustainability is increasingly important to organisations whether for regulatory financial or ethical reasons Business and Environmental Sustainability looks at the environmental aspect of sustainability for all organisations pursuing competitive advantage The book provides theoretical foundations from science economics policy and strategy introduces three environmental challenges climate change pollution and waste and looks at how corporate functions can address these This textbook provides a thorough foundation by introducing readers to the science reasoning and theory behind environmental sustainability and then delves into how these ideas translate into principles and business models for organisations to use Next it covers environmental challenges from climate change pollution and waste and then goes on to examine the different corporate functions from supply chain management to human resources to illustrate how environmental sustainability is managed and put into practice in organisations Finally a set of integrative case studies draws everything together and enables the reader to apply various analytical tools with the aim of understanding how companies can not only reduce their environmental footprint but can positively contribute to environmental sustainability Written by an award winning lecturer Business and Environmental Sustainability boasts a wealth of pedagogical features including examples from a range of industries and countries plus a companion website with slides quiz questions and instructor material This will be a valuable

text for students of business management and environmental sustainability and will also be suitable for broader courses on corporate responsibility and sustainability across environmental studies political science and engineering *Fundraising for Sport and Athletics* Richard Leonard,2026-02-10 In the third edition of *Fundraising for Sport and Athletics* author Richard Leonard expands upon the foundation of fundraising offered in previous editions with advanced strategies updated fundraising program examples and additional scholarly support of the administrative concepts **ECMLG 2017 13th European Conference on Management, Leadership and Governance** Martin Rich,2017-12-11 these Proceedings represent the work of contributors to the 13th European Conference on Management Leadership and Governance ECMLG 2017 hosted this year by the Cass Business School City University of London on 11 12 December 2017 The Conference Chair is Dr Martin Rich The conference will be opened with a keynote address by Dr Helen Rothberg from Marist College Poughkeepsie USA with a speech entitled Everything I Know about Leadership I Learned as a Bartender On the second day the keynote will be delivered by Dr Amanda Goodall from City University of London on the topic of Why we need core business experts as leaders ECMLG is a well established platform for individuals to present their research findings display their work in progress and discuss conceptual advances in many different branches of Management Leadership and Governance At the same time it provides an important opportunity for members of the community to come together with peers share knowledge and exchange ideas With an initial submission of 160 abstracts after the double blind peer review process there are 61 academic papers 8 PhD Papers and 2 Work in Progress papers in these Conference Proceedings These papers reflect the truly global nature of research in the area with contributions from Australia Austria Belgium Brazil Canada Czech Republic Finland Germany Hungary Iran Ireland Israel Kazakhstan Kenya Lithuania Malaysia **Why Management Fails. How Organizations Function and How to Impact Them** ,2021-11-23 Master s Thesis from the year 2020 in the subject Business economics Business Management Corporate Governance grade 1 Otto Beisheim School of Management Vallendar Kellogg WHU Executive MBA language English abstract Despite innovations in management science leaders struggle to adapt their organizations against rapid environmental changes Based on the assumption that this struggle results from obsolete management paradigms this work aims to outline a systemic view of organizations and groups as well as approaches to manage and change them This work adopts a fundamental question What dynamics evolve in organizations and groups or teams as a significant part of organizations that increase or decrease management s influence and the organizations or groups ability to induce change This work delivers a systematic approach to equip readers with analytical tools to arrive at their own understanding of a wide range of different organizations or groups This literature based work describes causal and systemic theories to explain human behavior based on an analysis of organizations based on systems theory Looking through different lenses provides insights into organizations underlying structures namely the machine game or fa ade metaphors Formal and informal structures and their interactions have been analyzed in different lifecycle stages

immobility and replaceability The construction of a systemic view of groups shows group specific dynamics and behavioral patterns The specialization in groups drives local best practices expected informal behavior and a narrowed perspective of what is essential for the department or organization These local rationalities are critical to leading groups or organizations The explanations of groups and organizations clarify that a hierarchical understanding or an understanding that an organization or even its culture can be rationally planned is misleading Organizations continually adjust to changing conditions in their environment but unfortunately not as their executives intend Therefore the change of organizations or groups is hypothesis driven experimentation that integrates the change of the change from the beginning Systemic interventions are based on observations and do not claim predictability The manager s primary tasks are to develop team reflexivity and autonomous decision making as well as increase variation and promote selections in the group or organization Incremental approaches to management group reflection and development and lateral and formal mechanisms of influence must be utilized in combination with a comprehensive organizational analysis
