Atr 72 600 Engine:

The World's Greatest Civil Aircraft Paul E Eden,2015-07-15 Packed with more than 200 artworks and photographs The World's Greatest Civil Aircraft is a colourful guide for the aviation enthusiast From cargo transports and freighters through flying boats to supersonic airliners each entry includes a description of the model's development and history a profile view key features and specifications

Cognition, Assessment and Debriefing in Aviation Wolff-Michael Roth,2017-07-20 Debriefing is a major component of the job in many high risk industries where errors can have considerable often deadly consequences including combat surgery and aviation Although there exists considerable literature on debriefing recent reviews of the literature suggest shortcomings in the topics researched b paucity of related theory c limitations in the number of empirical studies and d problems in research design There are also recent suggestions that there are surprisingly studies in the scholarly literature that show how to debrief how to teach or learn to debrief what methods of debriefing exists and how effective they are at achieving learning objectives and goals Meta analyses reveal substantial variations in research findings e g on the use of video as a means of debriefing that can be traced to the problems This book redresses these problems in that it provides a detailed look at debriefing and assessment the functions of different cognitive artifacts used and a theoretical framework that accounts for the complexity of flying an aircraft and for the debriefing of the pilots experiences especially under the high stakes condition of their bi annual evaluation for licensing purposes The book provides detailed investigation of flight examiners methods to arrive at assessments of aviation pilot performance It shows and theoretically models why there are good reasons for lower than desired inter rater agreements It offers detailed scenarios of how debriefing can be made to draw maximum benefit for pilot learning that is for the take home messages that will make them better pilots The theoretical framework includes objective factors that determine performance and the subjective experience pilots have while undergoing training and testing in flight simulators

Upon a Trailing Edge Michael Joy,2015-11-28 This is a story of aviation risk and the heart of the pilot Four out of five fatal aircraft accidents are due to human error three out of five to pilot error This book examines the technical aspects of these issues from the viewpoint of one of the UK's most experienced aviation cardiologists It spans the end of the Second World War through teaching cardiology in aviation on behalf of the International Civil Aviation Organisation ICAO worldwide via a history of powered flight time in the cadet force a flying scholarship on a Tiger Moth training to be a doctor later a cardiologist and owing a series of aircraft Michael Joy was appointed as cardiologist to the Civil Aviation Authority CAA in 1974 to assist the regulator in the development of standards of cardiological fitness Error risk and accident causation are introduced in the context of various fatal accidents In this stimulating and highly informative autobiography Michael looks back at his time with the ICAO and CAA drafting cardiological standards for Europe and worldwide travel to spread the message including the Khyber pass an aircraft factory in the Indonesian jungle and the slave island of Goree in Senegal Safety is no accident
