By Bojan Radojicic

## RELEVANCE

Financial information should be relevant to the decision-making needs of users. It should have predictive value, confirmatory value, or both.

## FAITHFUL REPRESENTATION

Financial information should faithfully represent the economic phenomena it purports to represent. It should be complete, neutral, and free from error.

## SUBSTANCE OVER FORM

Transactions and events should be accounted for and presented in accordance with their substance and economic reality, rather than merely their legal form.

## PRUDENCE

When uncertainty exists, caution should be exercised in the recognition and measurement of assets, liabilities. Anticipated losses should be recognized immediately, while gains should be recognized only when realized.

## COMPARABILITY

Financial information should be presented in a manner that enables users to compare it with information from other entities and across different periods.

## UNDERSTABILITY

Financial information should be presented in a clear and concise manner, making it understandable to users with reasonable knowledge of business and economic activities.

## TIMELINESS

Financial information should be available to users in a timely manner, allowing them to make informed decisions.

## VERIFABILITY

Financial information should be capable of being verified or corroborated by independent and knowledgeable parties.

## GOING CONCERN

Unless there is evidence to the contrary, it is assumed that the entity will continue to operate for the foreseeable future. Financial statements are prepared on a going concern basis.

## MATERIALITY

Financial information should be material if omitting or misstating it could influence the decisions of users. Materiality depends on the nature and magnitude of the item or information.
