Grammar of Spoken and Written English Douglas Biber, Stig Johansson, Geoffrey N. Leech, Susan Conrad, Edward Finegan, 2021-11-15 The completely redesigned Grammar of Spoken and Written English is a comprehensive corpus based reference grammar GSWE describes the structural characteristics of grammatical constructions in English as do other reference grammars But GSWE is unique in that it gives equal attention to describing the patterns of language use for each grammatical feature based on empirical analyses of grammatical patterns in a 40 million word corpus of spoken and written registers Grammar in use is characterized by three inter related kinds of information frequency of grammatical features in spoken and written registers

frequencies of the most common lexico grammatical patterns and analysis of the discourse factors influencing choices among related grammatical features GSWE includes over 350 tables and figures highlighting the results of corpus based investigations Throughout the book authentic examples illustrate all research findings The empirical descriptions document the lexico grammatical features that are especially common in face to face conversation compared to those that are especially common in academic writing Analyses of fiction and newspaper articles are included as further benchmarks of language use GSWE contains over 6 000 authentic examples from these four registers illustrating the range of lexico grammatical features in real world speech and writing In addition comparisons between British and American English reveal specific regional differences Now completely redesigned and available in an electronic edition the Grammar of Spoken and Written English remains a unique and indispensable reference work for researchers language teachers and students alike

The Prague Bulletin of Mathematical Linguistics ,2001 A Glossary of Corpus Linguistics Paul Baker,Andrew Hardie,Tony McEnery,2006 Presents a comprehensive glossary of terms used in corpus linguistics This alphabetic guide provides definitions and discussion of key terms used in corpus linguistics Written by a team of experienced academics in the field it provides coverage of both traditional and contemporary terminology **PALC'99--Practical Applications in Language Corpora** Barbara Lewandowska-Tomaszczyk,Patrick James Melia,2000 The papers in this volume are centred on the general field of corpus linguistics and the varying types of language corpora within it The papers show that corpus linguistics and the related subject of computational linguistics is a vibrant research area with a wide range of approaches They address a number of key issues in the research areas of learner corpora parallel corpora translation semantic and lexicography corpus analysis and expert systems Finally a number of contributors come from different language backgrounds and this is reflected in their papers *Encyclopedia of Language & Linguistics* E. K. Brown,2006 Computational Linguistics for the New Millennium Manfred Klenner,Henriëtte Visser,2002 The two seemingly conflicting tendencies synergy and divergence are both fundamental to the advancement of any science Their interplay defines the demarcation line between application oriented and theoretical research The papers in this festschrift in honour of Peter Hellwig are geared to answer questions that arise from this insight where does the discipline of Computational Linguistics currently stand what has been achieved so far and what should be done next Given the complexity of such questions no simple answers can be expected However each of the practitioners and researchers are contributing from their very own perspective a piece of insight into the overall picture of today s and tomorrow s computational linguistics Australian Review of Applied Linguistics ,2000 **Idioms and Collocations** Christiane Fellbaum,2007-05-08 Demonstrates how corpus based research can advance the understanding of linguistic phenomena in a given language **Four-letter Films** Gabriele Azzaro,2005 **Praci Bhasavijnan** ,2001 **Lexicography and Terminology** Olga Karpova,O. M. Karpova,Faina Iosifovna Kartashkova,2009 The present book contains a collection of works devoted to current trends in theoretical and practical

lexicography terminology and terminography All papers are divided into two main sections Part I Lexicography deals with analysis of historical and typological problems in lexicography with special reference to English Italian Russian and Southern African dictionaries for general and special purposes The main focus is given to the description of principles in lexicographic presentation of non equivalent lexis rhyming slang idioms clichés and gender nominations of people in bilingual and monolingual dictionaries Part II Terminology and Terminography is devoted to description of the current tendencies observed in terminology and terminography studies with special reference to modern European languages such as English Russian Norwegian etc Terms of different special domains are viewed from the angle of the latest achievements of modern science cognitive linguistics in particular It reveals specific features of terminological word combinations terms in colloquial use peculiarities of terms belonging to newly formed Languages for Special purposes typical features of recently appeared LSPs and presentations of new dictionaries TM projects of different subject areas This part reveals international nature of current tendencies in terminology studies and shows the national ways of their functioning and presentation in special dictionaries
