Theoretical Nursing Afaf Ibrahim Meleis,2011 An additional assumption was that the processes for theory development were new to nursing and hence nurses in graduate programs learned strategies for advancing knowledge from other disciplines This assumption was debunked with the knowledge that nurses were always engaged in knowledge development driven by their experiences in clinical practice Because of these assumptions most of the early writing about theory development was about outlining strategies that should be used rather than strategies that have already been used in the discipline to develop theories Theorists themselves did not uncover or adequately discuss ways by which they developed their theories therefore the tendency was to describe processes that were based on theories developed in other disciplines mainly the physical and social sciences And an implicit assumption was made that there should be a single strategy for theory development some claiming to begin the process from practice and others believing it should be driven by research Provided by publisher

The Nature of Theoretical Thinking in Nursing Hesook Suzie Kim, 2010-05-03. Named a 2013 Doody's Core Title. This is a well written thought provoking book on theoretical thinking and knowledge development in nursing. Score 93 4 stars Doody's Medical Reviews. The past decade has seen tremendous growth and enrichment in nursing's theoretical work. This third edition has therefore been updated revised and expanded to cover the gamut of recent developments in theoretical thinking in nursing. This book presents a systematic framework that can be used to examine elements in the field of nursing and posits important concepts that have emerged in the field. The chapters help to enhance readers understanding about how conceptualizations and theoretical statements are developed and refined in nursing while simultaneously offering a typology of conceptual domains that can be used to delineate theoretical elements essential to nursing. This third edition retains the previous typology of four domains: the domain of client, the client nurse domain, the domain of practice and the environment domain.
