Power and Progress Paul T. McCartney, 2006-02-01 In Power and Progress Paul T McCartney presents a provocative case study of the Spanish American War exposing newfound dimensions to the relationship between American nationalism and U S foreign policy Two significant but distinct foreign policy issues are at the center of McCartney s analysis the declaration of war against Spain in 1898 and the annexation of the Philippine Islands as part of the war s peace treaty According to McCartney Americans were very explicitly and self consciously expanding their nation s sense of mission in making these two foreign policy decisions They drew upon a cultural identity forged from racist religious and liberal democratic characteristics to guide the United States into the uncharted waters of international prominence What America

did abroad they emphatically framed in terms of what they believed America to be Foreign policy McCartney argues provided a concrete focus for this sense of mission on the world stage and played a marked role in shaping the contours and substance of American nationalism itself Power and Progress provides the first intensive look at how the idea of American mission has influenced the conduct of U S foreign policy lending fresh insight into a transformative moment in the development of both U S foreign policy and national identity It contributes measurably to our understanding of the cultural sources of American foreign policy and thus serves as a partial corrective to studies that overemphasize economic motives **Secularism** Mike King,2007-11-29 A timely and fascinating examination of the decline in religious faith and rise of secular thought in western intellectual society The Routledge International Handbook of the Arts and Education Mike Fleming,Liora Bresler,John O'Toole,2014-11-27 This International Handbook brings together leading writers on Arts in Education to provide a much needed authoritative guide to the main debates in the field and an informed account of contemporary developments in policy and practice Providing a detailed overview of key concepts and practical challenges the book combines theoretical insight with specific examples of innovative projects drawing on theoretical historical and empirical research perspectives to inform understanding The range of content highlights the breadth of the field addressing such issues as the importance of community arts and partnership as well as school education and providing insight into developments in multiple and connecting arts as well as traditional art forms Topics such as assessment creativity cultural diversity special needs the arts in early childhood adult education arts based research are all addressed by recognised authorities in each area The collection of chapters also serves to define the field of arts education recognising its diversity but highlighting the common elements that provide its identity The collection addresses generic issues common to all the arts while acknowledging differences and recognising the dangers of over generalisation It also includes specific chapters on each of the art forms visual art dance drama literature music media arts providing a cutting edge analysis of key contemporary issues in each subject Bringing together specially commissioned pieces by a range of international authors this Handbook will make an important contribution to the field of Arts Education The Creation of the British Atlantic World Elizabeth Mancke,Carole Shammas,2015-10-15 Was the British Atlantic shaped more by imperial rivalries or by the actions of subnational groups with a variety of economic social and religious agendas The Creation of the British Atlantic World analyzes the interrelationship between these competing explanations for the development of the British Atlantic by examining migration patterns on both the macro and micro level It also scrutinizes the roles played by trade religion ethnicity and class in linking Atlantic borders and the increasingly complicated legal intellectual and emotional relationship between the British sovereign and colonial charterholders Contributors include Joyce E Chaplin John E Crowley David Barry Gaspar April Lee Hatfield James Horn Ray A Kea Elizabeth Mancke Philip D Morgan William M Offutt Robert Olwell Carole Shammas Wolfgang Splitter Mark L Thompson Karin Wulf Avihu Zakai **The Scriblerian and the Kit-Cats** ,1996 **An Age of Science and Revolutions,**
