Miracles Stuart Wilde,2008-01-01 We live in an enclosed Universe where energy can change but cannot be lost forever Whatever power was used by miracle makers in the past is still for us to use as we desire Stuart makes the point that creating miracles in our lives is no more complicated than understanding the metaphysics of the Universal Law which states that within human beings there lies an immense power and this power is impartial and unemotional And because that law is indestructible and therefore infinite we know that the power used by miracle makers in the past is still available today Yet in our modern society we are brought up to believe only in those things we can logically understand We are not taught that the Universal Law has limitless potential or that this power is at our disposal and can be used to work miracles in our lives
