4 Year Diploma In Engineering Program Bteb:

Vocational Education and Training in Times of Economic Crisis Matthias Pilz, 2016-12-20 This book brings together a broad range of approaches and methodologies relevant to international comparative vocational education and training VET Revealing how youth in transition is affected by economic crises it provides essential insights into the strengths and weaknesses of the various systems and prospects of VET in contexts ranging from North America to Europe e.g Spain Germany or the UK to Asia such as China Thailand and India Though each country examined in this volume is affected by the economic crisis in a different way the effects are especially apparent for the young generation In many countries the youth unemployment rate is still very high and the job perspectives for young people are often limited at best The contributions in this volume demonstrate that VET alone cannot solve these problems but can be used to support a smooth transition from school to work If the quality of VET is high and the status and job expectations are good VET can help to fill the skills gap especially at the intermediate skill level Furthermore VET can also offer a realistic alternative to the university track for young people in many countries

Skilling the Workforce Abul Barkat, 2014 A study on the skills and certification related matters and the importance of enlarging the size

of the skilled workforce and diversifying the skills base for migrant aspirants Innovative Strategies in Higher Education for Accelerated Human Resource Development in South Asia Asian Development Bank,2016-05-01 This publication is part of a series of six country reports on technical and vocational education and training TVET and higher education in Bangladesh Nepal and Sri Lanka Each report presents current arrangements and initiatives in the respective country s skills development strategies These are complemented by critical analyses to determine key issues challenges and opportunities for innovative strategies toward global competitiveness increased productivity and inclusive growth The emphasis is to make skills training more relevant efficient and responsive to emerging domestic and international labor markets The reports were finalized in 2013 under the Australian AID supported Phase 1 of Subproject 11 Innovative Strategies for Accelerated Human Resource Development of Regional Technical Assistance 6337 Development Partnership Program for South Asia

Regional Inequality in the Distribution Pattern and Accessibility of Educational Institutions in Sylhet

Division, Bangladesh Choudhury Touhida Anwer,2016-04-20 Education is one of the most important constituents of human resource development In this study an attempt has been made to find out the regional inequality in distribution pattern and accessibility of educational institutions in Sylhet Division Bangladesh Spatial dispersion with regard to the city center district headquarter has been calculated to find out the distributional pattern Accessibility of the educational institutions has been computed with the help of the number of educational institutions population density and total area of the Sylhet division where the relationship between density of population and educational institutions have been taken in consideration Correlation between the density of populations and the density of educational institutions is established by analyzing standard statistical techniques as well as spatial analysis Post-primary Educational Institution Survey, 2005 ,2006

The Future of Technology Education P John Williams,Alister Jones,Cathy Bunting,2014-11-17 Twenty five years ago there was increasing optimism in policy curriculum and research about the contribution that technology education might make to increased technological literacy in schools and the wider population That optimism continues although the status of technology as a learning area remains fragile in many places This edited book is offered as a platform from which to continue discussions about how technology education might progress into the future and how the potential of technology education to be truly relevant and valued in school learning can be achieved The book results from a collaboration between leading academics in the field the wider group of authors having had input into each of the chapters Through the development of a deep understanding of technology based on a thoughtful philosophy pathways are discussed to facilitate student learning opportunities in technology education Consideration is given to the purpose s of technology education and how this plays out in curriculum pedagogies and assessment Key dimensions including design critique students cultural capital are also explored as are the role and place of political persuasion professional organisations and research that connects with practice The discussion in the book leads to a conclusion that technology education has both an ethical and moral responsibility to

support imaginings that sustain people and communities in harmony and for the well being of the broader ecological and social environment **Engineering Program, Combined Diploma and Degree Program** Lakehead University. School of Engineering,1970 **Diploma in building engineering services** Technician Education Council.
