

Theories on Origin of life

1. Theory of Special Creation

- This theory posits that life was created by a **supernatural entity or divine force at some point in the past.**
- this theory aligns with **religious and cultural beliefs**, providing a spiritual explanation for the **origin of life** rather than empirical scientific evidence.
- Offers a straightforward explanation for the complexity and diversity of life **without the need for understanding complex scientific concepts.**
- Does not offer testable or falsifiable hypotheses and is not supported by genetic evidence indicating the evolution of species over time.
