**Global Trends, Dynamics, and Imperatives for Strategic Development in Business Education in an Age of Disruption** Zhuplev, Anatoly, Koepp, Robert, 2021-10-22 Over the past two centuries the world's socio-economic progression has gone through profound paradigm changes unfolding along four major development stages. Higher education has been an important part of this process. The accelerated pace of technological, socio-economic, and business innovations, as well as ongoing fundamental changes in the real world, call for progress in pedagogy. While modern universities have adapted in various degrees through information platforms such as Blackboard or Brightspace, video conferencing, and other technological innovations, they still commonly rely on pedagogical ideas and concepts rooted in a thoroughly pre-modern era rooted in medieval times. **Global Trends, Dynamics, and Imperatives for Strategic Development in Business Education in an Age of Disruption** explores the genesis of higher education and its contemporary structure and profile in major global regions and discusses key trends, dynamics, drivers, and developmental imperatives currently shaping business education. Covering topics such as business education, online education, and strategic development, this book is essential for teachers, managers, trainers, faculty, administrators, policymakers, researchers, academicians, and students involved in studies that include industrial, economic, social, urban, innovation, legal, and policy development. **Resources in Education**, 2000-04

**New Directions and Trends in Parenting Research** Nicolette Vanessa Roman,Yosi Yaffe,Dorit Alt,2024-08-28 For many decades parenting has been at the center of interest for practitioners and researchers interested in child social and psychological development The body of research on children s socialization has primarily focused on traditional parenting styles and their related practices in the spirit of Baumrind s and others conceptualization of parental control and power assertion e g authoritative authoritarian and permissive This research has revealed many domains of children s and adolescents adjustment and wellbeing that are affected by and affecting parenting quality but intriguing new parental approaches and types have recently emerged in research literature such as digital parenting transcendent parenting parental alienation overparenting helicopter parenting tiger parenting and several others about which more is yet to be learned Likewise in recent years our understanding of the role played by factors such as culture ethnicity environmental and familial background in the relationship between parenting styles and children s psychological wellbeing and mental health has greatly improved However the question of whether or not there is a global uniform optimal parenting remains controversial as more studies are required to better understand the varying impacts of parenting on the child s well being within different demographic and familial contexts This is especially true for families with special needs children i e children and adolescents with developmental and psychological disabilities where research on parenting styles in particular is understudied

Additionally in the present digital era there is growing interest in relatively new behavioral outcomes in children and adolescents such as sedentary behaviors including eating and nutrition habits online behaviors and digital activity vs physical activity These and other important contemporary aspects in children's functioning and behaviors contribute to developmental mental health and further establishing our knowledge regarding the parental role in these contexts is essential
