The Human Past Christopher Scarre, 2018 The Human Past has established itself as a thorough and authoritative survey of human prehistory and the development of civilizations Written by an international team of respected experts in the field it presents a streamlined overview that can be broken down into a series of chapters focusing on individual regions and time periods The Fourth Edition has been completely revised with key theme feature boxes a new chapter on the peopling of the Americas a section on methods and theories full color maps timelines illustrations new coverage of sites and discoveries and a fully updated e media package including all images from the book test questions and videos Provided by publisher

Teaching Big History Richard B. Simon, Mojgan Behmand, Thomas Burke, 2015 Big History is a new field on a grand scale it tells the story of the universe over time through a diverse range of disciplines that spans cosmology physics chemistry astronomy geology evolutionary biology anthropology and archaeology thereby reconciling traditional human history with environmental geography and natural history Weaving the myriad threads of evidence based human knowledge into a master narrative that stretches from the beginning of the universe to the present the Big History framework helps students make sense of their studies in all disciplines by illuminating the structures that underlie the universe and the connections among them Teaching Big History is a powerful analytic and pedagogical resource and serves as a comprehensive guide for teaching Big History as well for sharing ideas about the subject and planning a curriculum around it Readers are also given helpful advice about the administrative and organizational challenges of instituting a general education program constructed around Big History The book includes teaching materials examples and detailed sample exercises This book is also an engaging first hand account of how a group of professors built an entire Big History general education curriculum for first year students demonstrating how this thoughtful integration of disciplines exemplifies liberal education at its best and illustrating how teaching and learning this incredible story can be transformative for professors and students alike

The Human Past Essentials Christopher Scarre, Tammy Stone, 2021 This textbook provides an archaeological overview of human prehistory throughout the world

Justice for People on the Move Gillian Brock,2020-02-20 Offers a comprehensive framework that can assist in responding to new justice challenges for people on the move

Migration and Political Theory Gillian Brock,2021-01-28 Migration dominates contemporary politics across the world and there has been a corresponding surge in political theorizing about the complex issues that it raises In a world in which borders seem to be solidifying while the number of displaced people soars how should we think about the political and ethical implications of human movement across the globe In this book Gillian Brock one of the leading figures in the field lucidly introduces and explains the important historical empirical and normative context necessary to get to grips with the major contemporary debates She examines issues ranging from the permissibility of controlling borders and the criteria that states can justifiably use to underpin their migration management policies through to questions of integration inclusion and resistance to unjust immigration laws Migration and Political Theory is essential reading for any student scholar or general reader who seeks to understand the political theory and ethics of migration and movement in the twenty first century
