Educating English Language Learners Fred Genesee,Kathryn Lindholm-Leary,Bill Saunders,Donna Christian,2006-01-16 The book provides a review of scientific research on the learning outcomes of students with limited or no proficiency in English in U S schools Research on students in kindergarten to grade 12 is reviewed The primary chapters of the book focus on these students acquisition of oral language skills in English their development of literacy reading writing skills in English instructional issues in teaching literacy and achievement in academic domains i e mathematics science and reading The reviews and analyses of the research are relatively technical with a focus on research quality design characteristics and statistical analyses The book provides a set of summary tables that give details about each study including full references characteristics of the students in the research assessment tools and procedures and results A concluding chapter summarizes the major issues discussed and makes recommendations about particular areas that need further research **Dispelling Misconceptions About English Language Learners** Barbara Gottschalk,2019-10-23 Nearly three quarters of public schools in the United States enroll English language learners ELLs That means teachers at all

grade levels need to know how to help these students achieve full academic English language proficiency In Dispelling Misconceptions About English Language Learners Barbara Gottschalk dispels 10 common misconceptions about ELLs and gives teachers the information they need to help their ELLs succeed in the classroom From her perspective as a teacher of English as a second language Gottschalk answers several key questions Just who is an English language learner Why is it important to support home language maintenance and promote family engagement What are the foundational principles for instruction that help educators teach ELLs across the content areas How can teachers recognize and incorporate the background knowledge and experiences ELLs bring to class Why is it important to maintain high standards and expectations for all students including ELLs How can a teacher tell when an ELL needs special education versus special teaching By answering these questions and more Gottschalk gives teachers a crystal clear understanding of how to reach ELLs at each stage of English language acquisition Her expert guidance reinforces for teachers what they are already doing right and helps them understand what they might need to be doing differently **High-expectation Curricula** Curt Dudley-Marling,Sarah Michaels,2012-11-28 Despite growing evidence that all students will benefit from engaging and challenging instruction many struggling students continue to experience a circumscribed curriculum that emphasizes low level skills Featuring contributions from emerging and well known researchers this important volume is about the enactment of high expectation curricula in everyday practice Chapters document specific classroom strategies that make a difference in the learning of students from low socioeconomic backgrounds and cultural and linguistic minority communities While the book focuses on language and literacy instruction key chapters on math and science also demonstrate high expectation teaching across the curriculum Book Features A broad framework for creating high expectation curricula in underperforming K12 schools clear illustrations of what alternative literacy practices look like powerful examples of rich math and science instruction research based strategies for second language learners students with disabilities and struggling readers an incisive critique of the deficit driven curricula that dominates in underachieving schools and classrooms **Handbook of Individual Differences in Reading** Peter Afflerbach,2015-08-11 The central unifying theme of this state of the art contribution to research on literacy is its rethinking and reconceptualization of individual differences in reading Previous research focused on cognitive components of reading signaled the need for ongoing work to identify relevant individual differences in reading to determine the relationship s of individual differences to reading development and to account for interactions among individual differences Addressing developments in each of these areas this volume also describes affective individual differences and the environments in which individual differences in reading may emerge operate interact and change The scant comprehensive accounting of individual differences in reading is reflected in the nature of reading instruction programs today the outcomes that are expected from successful teaching and learning and the manner in which reading development is assessed An important contribution of this volume is to provide prima facie evidence of the benefits

of broad conceptualization of the ways in which readers differ The Handbook of Individual Differences in Reading moves the field forward by encompassing cognitive non cognitive contextual and methodological concerns Its breadth of coverage serves as both a useful summary of the current state of knowledge and a guide for future work in this area **Supporting K-12 English Language Learners in Science** Cory Buxton,Martha Allexsaht-Snider,2016-11-18 The contribution of this book is to synthesize important common themes and highlight the unique features findings and lessons learned from three systematic ongoing research and professional learning projects for supporting English learners in science Each project based in a different region of the U S and focused on different age ranges and target populations actively grapples with the linguistic implications of the three dimensional learning required by the Framework for K 12 Science Education and the Next Generation Science Standards Each chapter provides research based recommendations for improving the teaching of science to English learners Offering insights into teacher professional learning as well as strategies for measuring and monitoring how well English learners are learning science and language this book tells a compelling and inclusive story of the challenges and the opportunities of teaching science to English learners **Improving Educational Outcomes of English Language Learners in Schools and Programs in Boston Public Schools** Miren Uriarte,Faye Karp,Laurie Gagnon,Rosann Tung,Sarah Rustan,Jie Chen,Michael Berardino,Pamela Stazesky,2011 Identifying Success in Schools and Programs for English Language Learners in Boston Public Schools of which this report is one part is a project commissioned by the Boston Public Schools as part of this process of change set in motion by the intervention of the state and the federal governments on behalf of Boston s English language learners The project is being conducted at the request of the Office for English Language Learners and is a collaboration among this Office the Mauricio Gaston Institute for Latino Community Development and Public Policy at the University of Massachusetts Boston and the Center for Collaborative Education in Boston The research aspect of this project entails two parts The first contained in this report is a quantitative analysis of enrollment and educational outcomes for Boston s ELLs in SY2009 with selected analyses of trends between SY2006 and SY2009 This analysis supports aspects of the required monitoring of English language learner programs and provides the district with the 2009 baseline that will support its ongoing assessment of programmatic strengths and weaknesses as it undertakes the brisk process of improvement in the programs offered to English language learners The project also entails a close qualitative examination of the practices at four BPS schools which are beating the odds in educating ELLs Detailed case studies of the four schools were conducted two of the schools performed substantially above the level that would be predicted by their demographic characteristics alone and two showed recent steady improvement in outcomes controlling for any changes in student demographics These case studies appear in a companion report entitled Learning from Consistently High Performing and Improving Schools for English Language Learners in Boston Public Schools This report begins with an explanation of the approach taken to conduct the quantitative analysis followed by its findings regarding the enrollment and demographics of

students in different types of programs and schools of different characteristics This is followed by a discussion of the educational outcomes of LEP students that considers their demographic characteristics the characteristics of the schools in which they are enrolled and the types of programs in which they participate Appended are 1 Methods 2 Additional Tables for Chapters III to VIII 3 Characteristics and Outcomes of LEP Students with Disabilities and 4 Additional HLM Results Individual chapters contain endnotes Contains 15 figures and 75 tables This paper was written with Eileen de los Reyes and Antonieta Bolomey For Improving Educational Outcomes of English Language Learners in Schools and Programs in Boston Public Schools Executive Summary see ED540996 **Multilingual Learners and Academic Literacies** Daniella Molle,Edynn Sato,Timothy Boals,Carol A. Hedgspeth,2015-03-05 Shifting the discourse from a focus on academic language to the more dynamic but less researched construct of academic literacies this volume addresses three key questions What constitutes academic literacy What does academic literacy development in adolescent multilingual students look like and how can this development be assessed What classroom contexts foster the development of academic literacies in multilingual adolescents The contributing authors provide divergent definitions of academic literacies and use dissimilar theoretical and methodological approaches to study literacy development Nevertheless all chapters reflect a shared conceptual framework for examining academic literacies as situated overlapping meaning making practices This framework foregrounds students participation in valued disciplinary literacy practices Emphasized in the new college and career readiness standards the notion of disciplinary practices allows the contributing authors to bridge the language content dichotomy and take a more holistic as well as nuanced view of the demands that multilingual students face in general education classrooms The volume also explores the implications of the emphasis on academic literacy practices for classroom instruction research and policy
