**English Grammar That Don't Suck** Brent Tharp,2017-01-01 Students of the world unite Do you find yourself dozing off in class while your teacher reads directly from your boring textbook Do you question why your English class is more like a book club than a way to master prose Ever wonder why the stuff you learn in class doesn't seem to help when taking placement standardized and achievement tests Many teachers pass the buck on the teaching of basic English skills instead choosing to read books and discuss them It's akin to racing motorcycles while naked kind of fun but a bad idea nonetheless At the same time while most standardized tests check for reading comprehension they also check for all of those nitpicky grammar rules which just happen to form the bedrock upon which reading comprehension is developed One cannot do well on a standardized test regardless of reading skill without a basic understanding of syntax and grammar This book is the solution Irreverent topical and relevant and perhaps a bit subversive it outlines everything a student should know about English grammar Ever wonder if certain rules don't always apply Likewise do you ponder whether one mistake matters more than another This book will tell you ensuring that you test well and that when you do err it's a little error rather than a monumental gaffe So rise up young scholars and buy this book to show that you won't take it any more And to improve your skills for test taking and overall communication using language **Primary School English Grammar and Composition**
