Myth Retelling Novel Quick Start:

American/Medieval Goes North Gillian R. Overing, Ulrike Wiethaus, 2019-10-07 One of the great virtues of *American Medieval Goes North* is its wide range of contributors with fascinatingly diverse relationships to the main terms of analysis. There are academic scholars, poets, filmmakers, tribal elders, teachers at various levels; there are Indigenous people, people from settler colonial cultures, expats, immigrants. Their analytic and imaginative encounters with the North catch at the intensely symbolic and political charge of that locus. At a time when Medieval Studies cannot afford to ignore the period's popular uptake, cannot continue with business as usual in the face of white supremacists' brazen appropriations of the Middle Ages, this volume points to new possibilities for grappling with the uneasy relationships between the American and the medieval. Children's Literature in the Elementary School Charlotte S. Huck, 1979 In *Children's Literature in the Elementary School*, Charlotte S. Huck advances the view that exposing children to good quality children's literature is a vital element of successful school reading programs. Books for children should be: 1) works of high literary quality; 2) useful in the curriculum; and 3) appeal to the young reader. Volumes that address this subject have traditionally been tasked with meeting a wide variety of objectives in higher education if adopted by education departments; methodological matters are stressed under the

school of library science bibliography is the object and under the English department textual analysis is emphasized This text is sufficiently broad as to adapt itself to any one of these approaches and should serve as a valuable guide for teachers librarians and elementary educators in any capacity
