The Restaurant at the End of the Universe Douglas Adams, 2008-12-24 Now celebrating the 42nd anniversary of The Hitchhiker's Guide to the Galaxy soon to be a Hulu original series Douglas Adams is a terrific satirist The Washington Post Book World Facing annihilation at the hands of the warlike Vogons Time for a cup of tea Join the cosmically displaced Arthur Dent and his uncommon comrades in arms in their desperate search for a place to eat as they hurtle across space powered by pure improbability Among Arthur's motley shipmates are Ford Prefect a longtime friend and expert contributor to The Hitchhiker's Guide to the Galaxy Zaphod Beeblebrox the three armed two headed ex president of the galaxy Tricia McMillan a fellow Earth refugee whose gone native her name is Trillian now and Marvin the moody android Their destination The ultimate hot spot for an evening of apocalyptic entertainment and fine dining where the food speaks for itself literally Will they make it The answer hard to say But bear in mind that The Hitchhiker's Guide deleted the term Future Perfect from its pages since it was discovered not to be What's such fun is how amusing the galaxy looks through Adams's sardonically silly eyes Detroit Free Press

At the Chef's Table Vanina Leschziner, 2015-06-03 This book is about the creative work of chefs at top restaurants in New York and San Francisco Based on interviews with chefs and observation in restaurant kitchens the book explores the question of how and why chefs make choices about the dishes they put on their menus It answers this question by examining a whole range of areas including chefs careers restaurant ratings and reviews social networks how chefs think about food and go about creating new dishes and how status influences their work and careers Chefs at top restaurants face competing pressures to deliver complex and creative dishes and navigate market forces to run a profitable business in an industry with exceptionally high costs and low profit margins Creating a distinctive and original culinary style allows them to stand out in the market but making the familiar food that many customers want ensures that they can stay in business Chefs must make choices between these competing pressures In explaining how they do so this book uses the case study of high cuisine to analyze more generally how people in creative occupations navigate a context that is rife with uncertainty high pressures and contradicting forces
