Musical Form And Analysis:

Musical Form and Analysis Glenn Spring, Jere Hutcheson, 2013-08-29 Understanding the way music unfolds to the listener is a major key for unlocking the secrets of the composer's art. Musical Form and Analysis, highly regarded and widely used for two decades, provides a balanced theoretical and philosophical approach that helps upper level undergraduate music majors understand the structures and constructions of major musical forms. Spring and Hutcheson present all of the standard topics expected in such a text, but their approach offers a unique conceptual thrust that takes readers beyond mere analytical terminology and facts. Evocative rather than encyclopedic, the text is organized around three elements at work at all levels of music: time pattern and proportion. Well-chosen examples and direct, well-crafted assignments reinforce techniques. A 140-page anthology of music for in-depth analysis provides a wide range of carefully selected works.

The Analysis of Musical Form James Mathes, 2007 For courses on the analysis of musical form with an emphasis on western music from 1700 to the present in the standard Music Theory curriculum. The Analysis of Musical Form emphasizes aural comprehension, incorporates recent analytic methodologies, and addresses musical form as both process and design. James Mathes wrote this book due to a lack of textbooks written in the past dozen years on musical form. The relatively few texts on the market do not address recent scholarship or methodology, do not address phrase rhythm and formal processes in a systematic or thorough manner, and omit discussion of vocal forms and developments in post-tonal music of the 20th century. There is also a lack of emphasis on aural comprehension of musical forms. Separate chapters on vocal forms and 20th century music, inclusion of recent developments in analytic methodology with suggested readings and aural exercises, and accompanying CDs address these problems.

First Year Analysis (Musical Form) Thomas Tapper, 2015-06-24 Excerpt from *First Year Analysis: Musical Form*. The purpose of this text is to acquaint the student with the structure of music. This requires the explanatory text and questions which are provided in this volume, as well as material for analysis which is provided in a separate volume entitled *Musical Form and Analysis*, Schmidt's Educational Series No. 122. The advantage of having all the required material for analysis in one book is obvious. The examples must necessarily be selected from a wide variety of sources from a wider literature in fact than most students possess. While this reading text covers the more common forms, it is most desirable to carry out all the analysis required. It is only by the actual analytical examination of music that the form is grasped as a whole and its subsidiary elements of structure revealed. A symphony or a symphonic poem like a cathedral has its ground plan, its details, its elaborated motives, and its interrelation of parts. While one may look upon a cathedral in wonder and admiration, both these emotions are intensified and justified by a knowledge of the creative thought and of the constructive process that lie in the work as a complex of growth, a complex that is always reducible to a simple basis. Anthology of Musical Forms - Structure & Style (Expanded Edition) Leon Stein, 1999-11-27. *Structure and Style* first published in 1962 and expanded in 1979, fills the need for new ways of analysis that put 20th-century music in perspective. It spans forms in use before 1600 through forms and techniques in use today. *Anthology of Musical Forms* provides musical examples of forms treated in *Structure and Style*. Some examples are analyzed throughout; most are left for the student to analyze. These books reflect Leon Stein's impressive background as student musician and composer. Stein studied composition with Leo Sowerby, Frederick Stock, conductor of the Chicago Symphony, and orchestration with Eric DeLamar, his assistant. He earned M.Mus. and Ph.D. degrees at DePaul University and was associated with its School of Music as director of the Graduate Division and chairman of the Department of Theory and Composition until his retirement in 1976. He has composed a wide variety of works, including compositions for orchestra, chamber combinations, two operas, and a violin concerto.
