Advanced Polymeric Materials Didier Rouxel, Sabu Thomas, Nandakumar Kalarikkal, Sajith T. Abdulrahman, 2018 Recent advances in polymer research have led to the generation of high quality materials for various applications in day to day life The synthesis of new functional monomers has shown strong potential in generating novel polymer materials with improved properties Advanced Polymeric Materials includes fundamentals and numerous examples of polymer blend preparation and characterizations Developments in blends polymer nanocomposites and its various characterization techniques are highlighted in the book *Advanced Polymeric Materials* Sabu Thomas, Nandakumar Kalarikkal, Maciej Jaroszewski, Josmine P. Jose, 2016-01-05 The aim of this new compendium is to provide a solid understanding of the recent developments in advanced polymeric materials from macro to nano length scales Composites are becoming more important because they can help to improve our quality of life such as being put into service in flight vehicles automobiles boats pipelines buildings roa

**Advanced Polymeric Materials for Sustainability and Innovations** Sajith Thottathil, Sabu Thomas, Nandakumar Kalarikkal, Didier Rouxel, 2018-10-01 This informative volume discusses recent advancements in the research and development in synthesis characterization processing morphology structure and properties of advanced polymeric materials With contributions from leading international researchers and professors in academic government and industrial institutions Advanced Polymeric Materials for Sustainability and Innovations has a special focus on eco friendly polymers polymer composites nanocomposites and blends and materials for traditional and renewable energy In this book the relationship between processing morphology property applications of polymeric materials is well established Recent advances in the synthesis of new functional monomers has shown strong potential in generating better property polymers from renewable resources Fundamental advances in the field of nanocomposite blends and nanostructured polymeric materials in automotive civil biomedical and packaging coating applications are the highlights of this book **Advanced Polymeric Materials**
