Matchmakers David S. Evans, Richard Schmalensee, 2016-05-03 A different kind of matchmaker Many of the most dynamic public companies from Alibaba to Facebook to Visa and the most valuable start ups such as Airbnb and Uber are matchmakers that connect one group of customers with another group of customers Economists call matchmakers multisided platforms because they provide physical or virtual platforms for multiple groups to get together Dating sites connect people with potential matches for example and ride sharing apps do the same for drivers and riders Although matchmakers have been around for millennia they re becoming more and more popular and profitable due to dramatic advances in technology and a lot of companies that have managed to crack the code of this business model have become today s power brokers Don t let the flashy successes fool you though Starting a matchmaker is one of the toughest business challenges and almost everyone who tries to build one fails In Matchmakers David Evans and Richard Schmalensee two economists who were among the first to analyze multisided platforms and discover their principles and who ve consulted for some of the most successful platform businesses in the world explain how matchmakers work best in practice why they do what they do and how entrepreneurs can improve their chances for success Whether you re an entrepreneur an investor a consumer or an executive your future will involve more and more multisided platforms and Matchmakers rich with stories from platform winners and losers is the one book you ll need in order to navigate this appealing but confusing world

Study Guide, Brief Principles of Macroeconomics, Third Edition, N. Gregory Mankiw David R. Hakes, 2004

The Case for a Carbon Tax Shi-Ling Hsu, 2012-06-22 There s a simple straightforward way to cut carbon emissions and prevent the most disastrous effects of climate change and we re rejecting it because of irrational political fears That s the central argument of *The Case for a Carbon Tax* a clear eyed sophisticated analysis of climate change policy Shi Ling Hsu examines the four major approaches to curbing CO2 cap and trade command and control regulation government subsidies of alternative energy and carbon taxes Weighing the economic social administrative and political merits of each he demonstrates why a tax is currently the most effective policy Hsu does not claim that a tax is the perfect or only solution but that unlike the alternatives it can be implemented immediately and paired effectively with other approaches In fact the only real barrier is psychological While politicians can present subsidies

and cap and trade as win win solutions the costs of a tax are immediately apparent Hsu deftly explores the social and political factors that prevent us from embracing this commonsense approach And he shows why we must get past our hang ups if we are to avert a global crisis

Harris, N. Gregory Mankiw, 1998 *Principles Econ Games Manual* N. Gregory Mankiw, 2000-07 **Introduction to Economics** N. Gregory Mankiw, 1997 **Economic Growth and Development** Hendrik Van den Berg, 2001 This textbook by Hendrik Van den Berg on Economic Growth and Development presents a long awaited synthesis of Development Economics and Growth Theory It also incorporates the recent contributions to our understanding of economic growth from the fields of economic history and the new institutional economics By basing its analysis on the recent advances in growth theory the book offers a unified approach to all episodes of economic growth for countries at all levels of development and throughout history Students will be comfortable with an analysis that enables them to understand economic growth in their own country as well as in economies very different from their own The unified theoretical framework greatly facilitates students understanding of the process of economic growth and the many cases and examples highlight the fascinating diversity of our world *Information Security and Ethics* Hamid R. Nemati, 2008 This six volume set serves as the ultimate source on all theories and models associated with information privacy and safeguard practices to help anchor and guide the development of technologies standards and best practices to meet these challenges Princip Microeconomics Test B N. Gregory Mankiw, Penny Kugler, 2000-08 **Principles of Microecon Tb** N. Gregory Mankiw, 2003-02 *Rich Country, Poor Country* Benjamin F. Bobo, 2005-04-30 In this series of essays that span over 20 years of research Benjamin Bobo builds the case for multinational corporations to take an active role in combating poverty around the world Citing sobering statistics for example three fourths of the world's nations are classified as Third World and four fifths of the world's people live in these nations Bobo argues that huge corporate entities not only have the wherewithal but an obligation to alleviate the suffering that results from a lack of economic resources and opportunity Through these provocative and forward looking essays he presents a theoretical and practical framework for multinationals to stimulate economic development in the Third World providing access to capital entrepreneurial expertise and emerging technologies In a bold challenge to conventional thinking about wealth creation and strategic decision making Bobo applies such concepts as profit satisficing and

stakeholder givebacks and proposes an agenda for change that begins in business schools the intellectual training ground for multinational managers with increased emphasis on sustainability and human development The net result he argues will be a world in which both producers and consumers benefit
