Children, Childhood, and Musical Theater Donelle Ruwe, James Leve, 2020-02-19 Bringing together scholars from musicology literature childhood studies and theater this volume examines the ways in which children's musicals tap into adult nostalgia for childhood while appealing to the needs and consumer potential of the child The contributors take up a wide range of musicals including works inspired by the books of children's authors such as Roald Dahl P L Travers and Francis Hodgson Burnett created by Rodgers and Hammerstein Lionel Bart and other leading lights of musical theater or conceived for a cast made up entirely of children The collection examines musicals that propagate or complicate normative attitudes regarding what childhood is or should be It also considers the child performer in movie musicals as well as in professional and amateur stage musicals This far ranging collection highlights the special place that musical theater occupies in the imaginations and lives of children as well as adults The collection comes at a time of increased importance of musical theater in the lives of children and young adults

Happy Days Benjamin L. Alpers, 2024-01-12 After the techno futurism of the 1950s and the utopian 1960s vision of a great society the 1970s saw Americans turning to the past as a source for both nostalgic escapism and serious reflection on the nation's history While some popular works like *Grease* presented the relatively recent past as a more innocent time far away from the nation's post Vietnam post Watergate malaise others like *Roots* used America's bicentennial as an occasion for deep soul searching *Happy Days* investigates how 1970s popular culture was obsessed with America's past but often offered radically different interpretations of the same historical events and icons Even the figure of the greaser once an icon of juvenile delinquency was made family friendly by Henry Winkler's Fonzie at the same time that he was being appropriated in more threatening ways by punk and gay subcultures The cultural historian Benjamin Alpers discovers similar levels of ambivalence toward the past in 1970s neo noir films representations of America's founding and neo slave narratives by Alex Haley and Octavia Butler By exploring how Americans used the 1970s to construct divergent representations of their shared history he identifies it as a pivotal moment in the nation's ideological fracturing
