Grendel John C. Gardner, 2015-10-15 When Grendel is drawn up from the caves under the mere where he lives with his bloated inarticulate hag of a mother into the fresh night air it is to lay waste Hrothgar's meadhall and heap destruction on the humans he finds there What else can he do For he is not like the men who busy themselves with God and love and beauty He sees the infuriating human rage for order and recognises the meaninglessness of his own existence GRENDEL is John Gardner's masterpiece it vividly reinvents the world of Beowulf In Grendel himself a creature of grotesque comedy pain and disillusioned intelligence Gardner has created the most unforgettable monster in fantasy
