

Medication Administration Test Bank Complete Questions And Answers

A nurse is teaching a patient about medications. Which statement from the patient indicates teaching is effective?

- a. "My parenteral medication must be taken with food."
- b. "I will rotate the sites in my left leg when I give my insulin."
- c. "Once I start feeling better, I will stop taking my antibiotic."
- d. "If I am 30 minutes late taking my medication, I should skip that dose." **CORRECT ANSWERS** "I will rotate the sites in my left leg when I give my insulin."

For daily insulin, rotate site within anatomical area. Rotating injections within the same body part (intrasite rotation) provides greater consistency in absorption of medication. Parenteral medication absorption is not affected by the timing of meals. Taking a medication 30 minutes late is within the 60-minute window of the time medications should be taken.

A nurse is preparing to administer an injection to a patient. Which statement made by the patient is an indication for the nurse to use the Z-track method?

- a. "I am allergic to many medications."
- b. "I'm really afraid that a big needle will hurt."
- c. "The last shot like that turned my skin colors."
- d. "My legs are too obese for the needle to go through." **CORRECT ANSWERS** "The last shot like that turned my skin colors."

The Z-track is indicated when the medication being administered has the potential to irritate sensitive tissues. It is recommended that, when administering IM injections, the Z-track method be used to minimize local skin irritation by sealing the medication in muscle tissue. The Z-track method is not meant to reduce discomfort from the procedure.

A 2-year-old child is ordered to have eardrops daily. Which action will the nurse take?

- a. Pull the auricle down and back to straighten the ear canal.
- b. Pull the auricle upward and outward to straighten the ear canal.
- c. Sit the child up for 2 to 3 minutes after instilling drops in ear canal.
- d. Sit the child up to insert the cotton ball into the innermost ear canal. **CORRECT ANSWERS** Pull the auricle down and back to straighten the ear canal.

Children up to 3 years of age should have the auricle pulled down and back, children 3 years of age to adults should have the auricle pulled upward and outward. **Solution**

Medication Competency Test Answers:

Enjoying the Track of Appearance: An Psychological Symphony within **Medication Competency Test Answers**

In some sort of taken by displays and the ceaseless chatter of instant transmission, the melodic beauty and mental symphony created by the published word often fade in to the background, eclipsed by the constant sound and interruptions that permeate our lives. However, nestled within the pages of **Medication Competency Test Answers** a marvelous literary prize filled with raw feelings, lies an immersive symphony waiting to be embraced. Constructed by an elegant composer of language, that charming masterpiece conducts readers on a mental journey, skillfully unraveling the concealed melodies and profound impact resonating within each cautiously constructed phrase. Within the depths of the emotional evaluation, we can discover the book is main harmonies, analyze its enthralling publishing model, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
