Education, 1998 **English Language Arts the Kindergarten Way** Molly Cochell, Laura Fullmer, 2017-05-02
Kindergarten teachers know that a child's first taste of school should be engaging, active, social, and fun. Yet teachers are presented with a challenge: How do they nurture the holistic, exploratory nature of early childhood while teaching with the intentionality and rigor required to meet learning goals? Let this resource pave the way. **English Language Arts the Kindergarten Way** contains methods for teaching foundational reading skills, building vocabulary, inspiring and developing writing, and helping children respond to literature and informational text while inherently fulfilling the needs of the whole child. An entire year of activities is included, and all activities are classroom tested and naturally infuse visual art, music, drama, poetry, movement, and puppetry so that kindergartners meet learning goals their way. **Literacy and Learning in the Content Areas** Sharon Kane, 2017-07-05
The 3rd Edition of *Literacy Learning in the Content Areas* helps readers build the knowledge, motivation, tools, and confidence they need as they integrate literacy into their middle and high school content area classrooms. Its unique approach to teaching content area literacy actively engages preservice and practicing teachers in reading and writing and the very activities that they will use to teach literacy to their own students in middle and high school classrooms. Rather than passively learning about strategies for incorporating content area literacy activities, readers get hands-on experience in such techniques as mapping, webbing, anticipation guides, booktalks, class websites, and journal writing and reflection. Readers also learn how to integrate children's and young adult literature, primary sources, biographies, essays, poetry, and online content communities and websites into their classrooms. Each chapter offers concrete teaching examples and practical suggestions to help make literacy relevant to students' content area learning. Author Sharon Kane demonstrates how relevant reading, writing, speaking, listening, and visual learning activities can improve learning in content area subjects and at the same time help readers meet national content knowledge standards and benchmarks. *Education of Children and Adolescents with Learning Disabilities* Abraham Ariel, 1992 *Especially for Teachers*, 1982 *Elementary Teacher's New Complete Ideas Handbook* Iris M. Patton, Loretta Serna, 2008
Revised to incorporate important new information about No Child Left Behind and the 2004 reauthorization of IDEA, this classic work in the field of teaching methodology for students with special needs continues to be the most comprehensive textbook available for students with mild to high incidence disabilities, i.e., learning disabilities, mild retardation, intellectual disabilities, emotional and behavioral disorders, and students experiencing learning problems in the general education classroom.
