execution and strategic control excerpt taken from publisher's website Interview Skills Shruthi S. & Sharmistha Bhattacharya, 2026-02-22 Interview Skills is a structured academic resource developed to provide a comprehensive understanding of interview processes within professional educational and organisational settings. The book presents interviews as systematic purpose-driven interactions used for assessment, selection, research, and evaluation. It builds conceptual clarity by defining interview skills, explaining their importance, and examining how effective communication, confidence, preparation, and professional conduct influence outcomes. A major strength of the text lies in its detailed treatment of interview formats including structured, unstructured, panel, telephonic, video, behavioural, and stress interviews. Each type is analysed in terms of purpose, methodology, advantages, and limitations, enabling learners to appreciate their practical relevance. The book further integrates interviews within the broader framework of recruitment and selection, offering insight into how organisations identify, evaluate, and onboard talent. Pedagogically designed with activities, review questions, and objective assessments, the text supports both theoretical understanding and skill development. It is particularly suitable for students, job aspirants, trainers, and educators seeking a systematic guide to interview competence. By combining conceptual foundations with application-oriented strategies, the book prepares readers to approach interviews with clarity, confidence, and professional effectiveness.
