Nilmtk An Open Source Toolkit For Non Intrusive Load:

Big Data Application in Power Systems Reza Arghandeh, Yuxun Zhou, 2017-11-27 Big Data Application in Power Systems brings together experts from academia industry and regulatory agencies who share their understanding and discuss the big data analytics applications for power systems diagnostics operation and control Recent developments in monitoring systems and sensor networks dramatically increase the variety volume and velocity of measurement data in electricity transmission and distribution level The book focuses on rapidly modernizing monitoring systems measurement data availability big data handling and machine learning approaches to process high dimensional heterogeneous and spatiotemporal data The book chapters discuss challenges opportunities success stories and pathways for utilizing big data value in smart grids Provides expert analysis of the latest developments by global authorities Contains detailed references for further reading and extended research Provides additional cross disciplinary lessons learned from broad disciplines such as statistics computer science and bioinformatics Focuses on rapidly modernizing monitoring systems measurement data availability big data handling and machine learning approaches to process high dimensional heterogeneous and spatiotemporal data

Sustainable Energy Solutions with Artificial Intelligence, Blockchain Technology, and Internet of Things Arpit Jain, Abhinav Sharma, Vibhu Jatuly, Brian Azzopardi, 2023-09-15 The text provides sustainable energy solutions using smart technologies such as artificial intelligence blockchain technology and the Internet of Things It further presents several case studies on applications of the Internet of Things artificial intelligence and blockchain technology in the field of sustainable energy Focuses on the integration of smart technology including artificial intelligence and sustainable energy Covers recent advancements in energy management techniques used in residential and commercial energy systems Highlights the use of artificial intelligence machine learning and their applications in sustainable energy Discusses important topics such as green energy grid modernization smart security in the power grid and fault diagnosis Presents case studies on the applications of the Internet of Things blockchain and artificial intelligence in sustainable energy The text showcases the latest advancements and the importance of technologies including artificial intelligence blockchain and Internet of Things in achieving sustainable energy systems It further discusses the role of machine learning applied deep learning and edge computing in renewable energy The text cover key concepts such as intelligent battery management system energy trading green energy grid modernization electric vehicles and charging station optimization It will serve as an ideal reference text for senior undergraduate graduate students and academic researchers in the fields including electrical engineering electronics and communication engineering computer engineering and environmental engineering

Sustainable Energy for Smart Cities Joao L. Afonso, Vitor Monteiro, José Gabriel Pinto, 2022-02-28 This book constitutes the refereed post conference proceedings of the 3rd EAI International Conference on Sustainable Energy for Smart Cities SESC 2021 held in November 2021 The conference was framed within the 7th Annual Smart City 360 Summit Due to COVID 19 pandemic the conferences

were held virtually The 13 revised full papers were carefully reviewed and selected from 28 submissions They present multidisciplinary scientific results toward answering the complex technological problems of emergent Smart Cities The subjects related to sustainable energy framed with the scope of smart cities and addressed along with the SESC 2021 conference are crucial to guarantee an equilibrium among economic growth and environmental sustainability as well as to contribute to reducing the impact of climate change

Proceedings of Eighth International Congress on Information and Communication Technology Xin-She Yang,R. Simon Sherratt,Nilanjan Dey,Amit Joshi,2023-09-14 This book gathers selected high quality research papers presented at the Eighth International Congress on Information and Communication Technology held at Brunel University London on 20-23 February 2023 It discusses emerging topics pertaining to information and communication technology ICT for managerial applications e governance e agriculture e education and computing technologies the Internet of Things IoT and e mining Written by respected experts and researchers working on ICT the book offers a valuable asset for young researchers involved in advanced studies The work is presented in four volumes Chapter Ontology Engineering to Model the European Cultural Heritage The Case of Cultural Gems is available open access under a Creative Commons Attribution 4.0 International License via SpringerLink

Sustainability in Energy and Buildings 2024 John R. Littlewood,R. J. Howlett,Lakhmi C. Jain,2025-09-30 This book contains the proceedings of the 16th KES International Conference on Sustainability and Energy in Buildings 2024 SEB2024 held in Madeira Portugal during September 18-20 2024 organized by KES International SEB24 invited contributions on a range of topics related to sustainable buildings and explored innovative themes regarding sustainable energy systems The conference formed an exciting chance to present interact and learn about the latest research and practical developments on the subject The conference attracted submissions from around the world Submissions for the full paper track were subjected to a blind peer reviewed process Only the best of these were selected for presentation at the conference and publication in these proceedings It is intended that this book provides a useful and informative snapshot of recent research developments in the important and vibrant area of sustainability in energy and buildings
