[AR Extractor](#) Padma Priya Sakthivel, 2022 When developing android apps it is difficult for the programmers to follow all programming constrains in Android documents Programming rules are difficult to be manually identified and documented by programmers As those rules are not so simple extraction of these kind of rules will be helpful for programmers to avoid new bugs and violations Sentences with keywords like should must important note caution etc are possible constraints and can carry significant conditional information that can be helpful for aspiring android developers In case of developing complex or large android apps most of the time it is complicated for the programmers to follow all rules since they do not have these rules

documented This paper proposes a novel method called AR Extractor Android Rules Extractor to automatically extract programming constraints using natural language processing techniques NLP NLP is a branch of Artificial Intelligence and it involves a set of statistical techniques for identifying parts of speech entities sentiment text classification and other aspects of text In this project we worked on extracting important text information from Android Developers website by employing the Parts of Speech tagging to understand the relation between each words in a sentence and identify its structure to refine the unstructured text data into structured consolidated format It can help programmers to reduce bugs understand programming parameters improve software maintainability and reliability

PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
