

Operations Management – Case Study Analysis Instructions

General Instructions

Students will prepare a written case study as outlined below.

Methodology

Each student should take the role of a consultant assigned to report on the operations issues to senior management.

In all cases students are expected to research at least 2 peer-reviewed articles (e.g., journal papers) about the topic in discussion to help support their analysis. Wikipedia, blogs and other unreliable web resources will **not** be accepted.

Written Presentation (15% out of 100% of the overall course weighted grade)

Students will prepare a written case analysis presentation, which must be submitted, to the instructor.

The text should be double spaced and should be done in a professional manner. You should include copies of all tables, diagrams, etc. used in your presentation. The cover sheet should include the student name. The student will submit one copy of his/her analysis to the instructor via the BrightSpace "Assignment Section" of the course shell, labeled "Case Study – Individual." The due date submission of this assignment is noted in the BrightSpace "Assignment Section" of the course shell.

There is not a firm guideline of the report content. However, it is important that the following information be present.

1. **Cover page** – with the usual information - student information, title, subtitle, course, and section names and numbers.
2. **Executive summary** – the report is addressed to senior management of the company in question. The executive summary should include a general summary of the case, the conclusion, and recommendation.
3. **Table of contents**
4. **Content**
This is dependent upon what type of project is, e.g. whether it is research-oriented, or practical problem-solving.
5. **Appendix**
