Issues addressed include current and future challenges in professional development of teachers, use of technology, tools, design of learning environments, and appropriate student assessments. This handbook presents challenging and inspiring international research perspectives on the history and nature, current issues, and future directions of statistics education and statistics education research.

Research on Classroom Ecologies Deborah L. Speece, Barbara K. Keogh, 1996. First Published in 1996. Routledge is an imprint of Taylor Francis, an informa company.

Technology, Reading, and Language Arts Jerry Willis, Elizabeth C. Stephens, Kathryn I. Matthew, 1996. Technology, Reading, and Language Arts explores ways in which preservice and inservice teachers can integrate technology into their reading instruction. It is organized around the dominant approaches to literacy instruction, links theory to practice in meaningful ways, and covers types of software and electronic resources and their use in the classroom rather than describing hundreds of different programs. This book embraces a solid conceptual framework to reading instruction and will be of particular interest to instructors who prefer constructivist, whole language, and language experience approaches to teaching reading. However, direct instruction approaches are also covered in two chapters.
