Dear Friend and Subscriber

What you are about to read is a remarkably simple idea that can be worth thousands and thousands of dollars to you. It is a tested idea. Others are using it every day and now... it's your turn!

Listen: One of the very best ways to advertise your business is direct mail. When you use direct mail, it enables you to fire your advertising bullets with a rifle instead of a shotgun. In other words, it lets you "target" your market.

However, there is a drawback. You see, direct mail is very expensive. Right now, for example, the postage cost of mailing a 1-ounce, first-class letter is 22 cents. And soon, it's going to be 25 cents and more. And, when you use direct mail, there are many other expenses besides postage. For example, you've got to pay for printing, list rental, envelopes, folding, stuffing and sealing and so on.

What this all boils down to is it's going to cost you about 40 cents (or more) for every piece of direct mail advertising you send out, even if you mail bulk rate.

**Writer Career Paths** Nicolas Cole,2026-03-24 There are only three career paths to make money as a writer Work at a magazine or newspaper Work in advertising Or work at a coffee shop by day and on your novel at night That was the advice

Nicolas Cole's college professor gave him upon graduating with a degree in creative writing in 2013. But he didn't listen. Over the past 10 years, Nicolas Cole has generated more than 30 million as a writer by proving that writing can be monetized across a wide variety of business models, industries, and platforms. He has generated over 1 million monetizing his writing with SaaS, over 2 million with paid newsletters, over 5 million as a Ghostwriter, and over 10 million with high ticket coaching programs. All by leveraging the same fundamental skill: the ability to write words people want to read. So can you make money writing? Yes, but the career path you choose determines your earning potential. That's why some writers make millions of dollars per year while others struggle to pay rent. Why Literary Fiction Writers win prestigious awards but live modest lives while Genre Fiction Writers who are often ridiculed by the literary elite earn 10x even 100x more. And why most writing programs fail to teach students the single most important skill: how to monetize your writing. In this book, you will learn: The 9 Writer Career Paths, the writing skills you need to master each one, and which careers promise the highest earning potential. What authors Colleen Hoover, Stephen King, and George Saunders all have in common, and why understanding the business model behind a writer's career is more valuable than writing advice. The 1 mistake aspiring writers make when trying to build a writing career, the difference between writing for status versus writing for money, and how to sequence your career accordingly. The specific steps to start making money as a writer today, including case studies of writers earning 6, 7, and 8 figures across different specializations, realistic income expectations, time horizons, and business models for each path. Why AI is not going to kill writing careers, and how each of the 9 Writer Career Paths will be impacted differently, including which paths become more valuable as AI accelerates. This book is business advice for writers. It explains the business of writing in the digital age, choosing a writing career path that aligns with your personal goals, and building a lucrative, sustainable writing career on your own terms. If you make money writing words, you enjoy regardless of industry, business model, or genre, you've won. Don't let the legacy publishing world convince you otherwise.

[How to Use Your Business Cards for Success](#) G. Lee Mikules, 2003. Your business card is usually the first tangible thing a customer/client will take with him or her after meeting you. Does it communicate the message you want it to? G. Lee Mikules offers guidelines on how to get the most from your card, from design to distribution. Everyone is concerned about what is important to them before they are concerned about anything else. And you, as the one who hands them out, must realize that your ego will clash with that of the person who receives your card. The person you hand your card to does not care about your name or the fact that you have been in business for 25 years or that you have every credential possible, and so forth. The only thing he is interested in is what your business product or service can do for him. Will it save or make him money? Will it feed his ego? You have to distill the essence of what your business is, and most importantly, what it can do for your customer, into a concise, benefit-oriented, hard-hitting sales message. Then put that message front and center on your card. *Entrepreneur*, 1994-07

[Direct Marketing Market Place](#) National Register

Publishing, National Register Publishing Co. Staff, 1995-03      **The Survey** , 1924      **The Boron Letters** Gary Halbert, Bond Halbert, 2013-06-11 A series of letters by history's greatest copywriter Gary C Halbert explaining insider tactics and sage wisdom to his youngest son Bond. Once only available as part of a paid monthly premium, The Boron Letters are unique in the marketing universe and now they are a bona fide cult classic among direct response marketers and copywriters around the world. The letters inside are written from a father to a son in a loving way that goes far beyond a mere sales book or fancy boardroom advertising advice. It's more than a Master's Degree in selling persuasion; it's hands down the best SPECIFIC and ACTIONABLE training on how to convince people to buy your products or services than I have ever read. The Boron Letters contain knowledge well beyond selling. The letters also explain how to navigate life's hurdles. This marketing classic is personal and easily digestible. Plus, immediately after reading the first chapters, you can go out and make money and a real noticeable difference in your marketplace. There are very few successful direct response marketers online or off who don't owe something to Gary Halbert, and for many of them, The Boron Letters is the crown jewel in their collection. Copywriters and marketers read and re-read The Boron Letters over and over again for a reason. These strategies, secrets, and tips are going to be relevant 5, 10, even 100 years from now because they deal honestly with the part of human psychology which never changes: how to convince and convert folks into buyers. Bottom line: Read the first chapter. Get into the flow of Gary's mind. Then read the second. I dare you to NOT finish the entire darn thing. After you put a few of the lessons into practice, you too will find yourself reading The Boron Letters again and again like so many of today's top marketers. If you don't already have your copy, get it now. I promise you won't regret it. My best, Lawton Chiles      AB Bookman's Weekly , 1987-07
